The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rate.

SPECIAL CONDITIONS

1. The annual service charge applies to service during the twelve-month period commencing July 1, and is due in advance. If a permanent resident of the area has been a customer of the utility for at least twelve months, he may elect at the beginning of each year to pay prorated service charges in advance at intervals of less than one year in accordance with the utility's established billing cycle.
2. The opening bill for metered service, except from conversion from flat rate service, shall be the established annual service charge for the service. Where initial service is established after the first day of any year, the portion of such annual charge applicable to the current year shall be determined by multiplying the annual charge by one three-hundred-sixty-fifth (1/365) of the number of days remaining in the year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.
3. The established billing cycle is every other month (bi-monthly). The billing cycle may be at longer intervals during the winter season.
4. The SDWBA (Safe Drinking Water Bond Act) surcharge is in addition to the water bill. This surcharge shall be identified on each bill. The surcharge is specifically for the repayment of the California SDWBA loan authorized by Decision No. 88-01-037.
