BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of CALIFORNIA WATER SERVICE COMPANY (U-60-W), a California corporation, for an order (1) authorizing it to increase rates for water service by \$94,838,100 or 16.5% in test year 2017, (2) authorizing it to increase rates by \$22,959,600 or 3.4% on January 1, 2018, and \$22,588,200 or 3.3% on January 1, 2019, in accordance with the Rate Case Plan, and (3) adopting other related rulings and relief necessary to implement the Commission's ratemaking policies.

Application 15-07-015

Filed July 9, 2015

**RULE 3.2 COMPLIANCE FILING OF
CALIFORNIA WATER SERVICE COMPANY (U-60-W)**

Pursuant to Rule 3.2 of the Commission's Rules of Practice and Procedure ("Rules"), California Water Service Company ("Cal Water") respectfully submits that it has complied with the notice requirements of Rule 3.2(b), (c), and (d) regarding Cal Water's Application for Authority to increase rates in its 23 operating districts ("Application") accepted for submission on July 9, 2015.

Sections 3.2(b), (c), (d), and (e) of the Commission's Rules state as follows:

(b) Applicants for authority to increase rates shall, within 20 days after filing the application with the Commission, serve notice to the following stating in general terms the proposed increases in rates or fares: (1) the Attorney General and the Department of General Services, when the State is a customer or subscriber whose rates or fares would be affected by the proposed increase; (2) the County Counsel (or District Attorney if the county has no County Counsel) and County Clerk, and the City Attorney and City Clerk, listed in the current Roster published by the Secretary of State in each county and city in which the proposed increase is to be made

effective; and (3) any other persons whom applicant deems appropriate or as may be required by the Commission.

(c) Gas, electric, telephone, telegraph, water or heat utilities, within 20 days after the filing of the application, shall publish at least once in a newspaper of general circulation in the county in which the increases are proposed to be made effective a notice, in general terms, of the proposed increases in rates. Such notice shall state that a copy of said application and related exhibits may be examined at the offices of the California Public Utilities Commission in San Francisco and in such offices of the applicant as are specified in the notice, and shall state the locations of such offices. Applicants shall maintain documentation of compliance with this subsection, and shall provide it to any person upon request.

(d) Electric, gas, heat, telephone, water, or sewer system corporations, within 45 days, if the corporation operates on a 30-day billing cycle, or within 75 days, if the corporation operates on a 60-day or longer billing cycle, after the filing of an application to increase any rate of charge, other than a change reflecting and passing through to customers only new costs to the corporation which do not result in changes in revenue allocation, for the services or commodities furnished by it, shall furnish to its customers affected by the proposed increase notice of its application either by electronically linking to such notice for customers that receive their bills electronically or, for customers that receive their bills by mail, by mailing such notice postage prepaid or including such notice with the regular bill. The notice shall state the amount of the proposed rate change expressed in both dollar and percentage terms for the entire rate change as well as for each customer classification, a brief statement of the reasons the change is required or sought, and the mailing, and if available, the e-mail, address of the Commission to which any customer inquiries may be directed regarding how to participate in, or receive further notices regarding the date, time, and place of any hearing on the application, and the mailing address of the corporation to which any customer inquiries may be directed.

(e) Applicants shall file proof of compliance with the notice requirements of subsections (b), (c) and (d) within 20 days after compliance with the last of these subsections that is applicable. Proof of

compliance with subsection (c) shall include a sworn verification listing the newspapers and publication dates, and a sample of each different notice.¹

Cal Water has complied with the above notice requirements and is submitting this filing as proof of compliance pursuant to subsection (e).

Exhibit A contains the list of state and local officials to whom notice of the Application was sent on July 14, 2015, as required by subsection (b). **Exhibit B** consists of newspaper notice samples and sworn proofs of newspaper publication per Rule 3.2(c). As reflected in the affidavits in **Exhibit C** regarding compliance with subsection (d), notices of the Application were provided via U.S. Mail to customers with paper bills, and were made available electronically to customers enrolled in e-billing.

DATED this 16th day of October 2015, at San Jose California:

Respectfully submitted,
CALIFORNIA WATER SERVICE COMPANY

By: /s/ _____

Natalie D. Wales
Regulatory Attorney

At King City, California

VALERIE GEML, OFFICE ASSISTANT

No: _____

**Notification of Application Filed by California Water Service Company
for a Rate Increase in its King City District
Application No. 15-07-015**

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the King City District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Salinas and King City Districts to improve affordability and develop administrative efficiencies.

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Salinas and King City) of \$9,719,981, or 31.0%, for 2017, \$1,856,802, or 4.5%, for 2018 and \$1,847,595, or 4.3%, for 2019. With consolidation, the total revenue increase over the three years would be \$13,424,378 or 42.8%.

King City Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	97,050	6.4	72,914	4.5	90,015	4.3
*Nonresidential Metered Service	99,175	6.4	74,582	4.5	92,074	4.3

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved, Cal Water requests revenue increases for its King City District of \$761,462, or 23.2%, for 2017, \$263,563, or 6.5%, for 2018 and \$262,393, or 6.1%, for 2019. Without consolidation, the total revenue increase over the three years would be \$1,287,418 or 39.2%.

King City Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	494,643	32.9	132,927	6.6	129,880	6.1
*Nonresidential Metered Service	507,182	32.9	135,622	6.6	132,513	6.1

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Salinas and King City Districts is approved, the bills for a typical residential customer in King City with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits.**

King City Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	55.43	3.57	6.4	2.67	4.5	2.66	4.3

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits.**

King City Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	55.43	18.20	32.8	5.00	6.8	4.79	6.1

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the King City District, Cal Water's requested increase reflects some of the following components:

- 5.9% of the increase is for projected water supply costs
- 73.8% of the increase is for water infrastructure improvements
- 20.2% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 1301 Broadway Street, Suite A-3, King City, CA 93930. (831) 385-5486. An electronic or paper copy of said application...

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 1301 Broadway Street, Suite A-3, King City, CA 93930, (831) 385-5486. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Notification of Application Filed by California Water Service Company
for a Rate Increase in its Livermore District
Application No. 15-07-015**

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Livermore District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Livermore District of \$2,364,079, or 11.7%, for 2017, \$539,046, or 2.4%, for 2018 and \$538,225, or 2.3%, for 2019. The total revenue increase over the three years would be \$3,441,350 or 17.1%.

Estimated Revenue Increases (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	820,269	5.5	403,789	2.6	374,651	2.3
*Nonresidential Metered Service	359,448	5.5	176,296	2.6	163,574	2.3

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 11,969 gallons (16 Ccf) of water per month. **These numbers do not include surcharges and credits.**

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	68.35	3.70	5.4	1.82	2.5	1.72	2.3

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Livermore District, Cal Water's requested increase reflects the following components:

- 33.6% of the increase is for projected water supply costs
- 44.8% of the increase is for water infrastructure improvements
- 21.6% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 195 South N Street, Livermore, CA 94550, (925) 447-4900. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. Notification of Application Filed by California Water Service Company
for a Rate Increase in its Los Altos District
Application No. 15-07-015**

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Los Altos District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Los Altos District of \$7,421,282, or 28.3%, for 2017, \$754,463, or 2.2%, for 2018 and \$592,457, or 1.7%, for 2019. The total revenue increase over the three years would be \$8,768,201 or 33.5%.

Estimated Revenue Increases (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	1,881,627	8.5	631,052	2.6	432,993	1.7
*Nonresidential Metered Service	757,915	8.5	232,406	2.6	159,464	1.7

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 15,709 gallons (21 Ccf) of water per month. **These numbers do not include surcharges and credits.**

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	96.98	8.01	8.3	2.69	2.6	1.86	1.7

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Los Altos District, Cal Water's requested increase reflects the following components:

- 55.3% of the increase is for projected water supply costs
- 31.1% of the increase is for water infrastructure improvements
- 13.6% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 949 B Street, Los Altos, CA 94024, (650) 917-0152. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 949 B Street, Los Altos, CA 94024, (650) 917-0152. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Notification of Application Filed by California Water Service Company
for a Rate Increase in its Marysville District
Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Marysville District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Chico, Marysville, Oroville, and Willows Districts to improve affordability and develop administrative efficiencies.

With Consolidation - If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Chico, Marysville, Oroville, and Willows) of \$6,545,081, or 20.3%, for 2017, \$676,337, or 1.7%, for 2018 and \$960,412, or 2.4%, for 2019. With consolidation, the total revenue increase over the three years would be \$8,181,830 or 25.4%.

Marysville Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$	%	2018 \$	%	2019 \$	%
	Increase		Increase		Increase	
Residential Metered Service	110,132	6.4	34,684	1.7	57,451	2.4
Residential Flat Rate Service	38,377	6.4	1,733	1.7	2,871	2.4
*Nonresidential Metered Service	88,513	6.4	26,820	1.7	44,425	2.4

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation - If consolidation is not approved, Cal Water requests revenue increases for its Marysville District of \$593,654, or 16.3%, for 2017, \$77,574, or 1.8%, for 2018 and \$41,081, or 1.0%, for 2019. Without consolidation, the total revenue increase over the three years would be \$712,309 or 19.6%.

Marysville Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$	%	2018 \$	%	2019 \$	%
	Increase		Increase		Increase	
Residential Metered Service	376,764	23.8	98,763	4.2	22,950	1.0
Residential Flat Rate Service	142,004	23.8	5,544	4.2	1,288	1.0
*Nonresidential Metered Service	295,461	23.8	72,479	4.2	16,842	1.0

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Chico, Marysville, Oroville, and Willows Districts is approved, the bills for a typical residential customer in Marysville with a 5/8" x 3/4" meter using 6,732 gallons (9 Ccf) of water per month, and a flat-rate service customer with a lot size between 6,001 and 10,000, would resemble those below. These numbers do not include surcharges and credits.

Marysville Typical Residential Customer Bill Increase with Consolidation							
Residential Customer	Current \$	2017 \$	%	2018 \$	%	2019 \$	%
		Increase		Increase		Increase	
5/8" x 3/4" meter	39.21	2.53	6.4	0.72	1.7	1.03	2.4
Flat-rate	77.90	10.22	13.1	1.54	1.7	2.18	2.4

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 6,732 gallons (9 Ccf) of water per month, and a flat-rate service customer with a lot size between 6,001 and 10,000 square feet, would resemble those below. These numbers do not include surcharges and credits.

Marysville Typical Residential Customer Bill Increase without Consolidation							
Residential Customer	Current \$	2017 \$	%	2018 \$	%	2019 \$	%
		Increase		Increase		Increase	
5/8" x 3/4" meter	39.21	8.66	22.1	2.04	4.3	0.48	1.0
Flat-rate	77.90	37.81	48.5	4.92	4.2	1.15	1.0

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Marysville District, Cal Water's requested increase reflects some of the following components:

- 3.5% of the increase is for projected water supply costs
- 96.5% of the increase is for water infrastructure improvements

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 131 D Street, Marysville, CA 95901, (530) 742-6911. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. Notification of Application Filed by California Water Service Company for a Rate Increase in its Oroville District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Oroville District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Chico, Marysville, Oroville, and Willows Districts to improve affordability and develop administrative efficiencies.

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Chico, Marysville, Oroville, and Willows) of \$6,545,081, or 20.3%, for 2017, \$676,337, or 1.7%, for 2018 and \$960,412, or 2.4%, for 2019. With consolidation, the total revenue increase over the three years would be \$6,181,830 or 25.4%.

Oroville Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	% Increase	2018 \$ Increase	% Increase	2019 \$ Increase	% Increase
Residential Metered Service	132,204	6.4	35,743	1.7	50,470	2.4
Nonresidential Metered Service	185,006	6.4	58,666	1.7	82,840	2.4

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved, Cal Water requests revenue increases for its Oroville District of \$829,409, or 18.2%, for 2017, \$148,054, or 2.8%, for 2018 and \$127,764, or 2.0%, for 2019. Without consolidation, the total revenue increase over the three years would be \$1,091,126 or 24.0%.

Oroville Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	% Increase	2018 \$ Increase	% Increase	2019 \$ Increase	% Increase
Residential Metered Service	185,876	9.8	-9,526	-0.4	49,826	2.0
Nonresidential Metered Service	292,591	9.8	-12,036	-0.4	62,938	2.0

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Chico, Marysville, Oroville, and Willows Districts is approved, the bills for a typical residential customer in Oroville with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits.

Oroville Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	% Increase	2018 \$ Increase	% Increase	2019 \$ Increase	% Increase
5/8" x 3/4" meter	63.91	4.12	6.4	-1.74	-2.6	1.61	2.4

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits.

Oroville Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	% Increase	2018 \$ Increase	% Increase	2019 \$ Increase	% Increase
5/8" x 3/4" meter	63.91	5.72	9.8	-0.29	-0.4	1.39	2.0

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Oroville District, Cal Water's requested increase reflects some of the following components:

- 3.5% of the increase is for projected water supply costs
- 96.5% of the increase is for water infrastructure improvements

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 1905 High Street, Oroville, CA 95965, (530) 533-4034. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4586. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Notice of Application Filing for a General Rate Increase in the Salinas District

(Application No. 15-07-015)

Order Number: 2779881

Para más información sobre este aviso por favor llame al número (831) 757-3644

Notification of Application Filed by California Water Service Company for a Rate Increase in its Salinas District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Salinas District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Salinas and King City Districts to improve affordability and develop administrative efficiencies.

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Salinas and King City) of \$9,719,981, or 31.0%, for 2017, \$1,856,802, or 4.5%, for 2018 and \$1,847,595, or 4.3%, for 2019. With consolidation, the total revenue increase over the three years would be \$13,424,378 or 42.8%.

Salinas Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	5,225,300	33.1	1,084,314	5.1	926,773	4.3
*Nonresidential Metered Service	4,181,424	33.1	864,308	5.1	738,732	4.3

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved, Cal Water requests revenue increases for its Salinas District of \$8,958,519, or 31.9%, for 2017, \$1,583,644, or 4.3%, for 2018 and \$1,576,698, or 4.1%, for 2019. Without consolidation, the total revenue increase over the three years would be \$12,118,861 or 43.2%.

Salinas Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	4,773,215	30.3	1,019,460	4.9	10,449,192	4.1
*Nonresidential Metered Service	3,827,909	30.3	813,597	4.9	8,339,146	4.1

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Salinas and King City Districts is approved, the bills for a typical residential customer in Salinas with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits.**

Salinas Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	48.25	15.99	33.1	3.30	5.1	2.91	4.3

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted **without consolidation**, the bill of a typical residential customer with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits.**

Salinas Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	48.25	14.61	30.3	3.11	4.9	2.69	4.1

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Salinas District, Cal Water's requested increase reflects some of the following components:

- 5.9% of the increase is for projected water supply costs

the following dates, to-wit:

Salinas Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	4,773,215	30.3	1,019,460	4.9	10,449,192	4.1
*Nonresidential Metered Service	3,827,909	30.3	813,597	4.9	8,339,146	4.1

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Salinas and King City Districts is approved, the bills for a typical residential customer in Salinas with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits.

Salinas Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	48.25	15.99	33.1	3.30	5.1	2.91	4.3

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits.

Salinas Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	48.25	14.61	30.3	3.11	4.9	2.69	4.1

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Salinas District, Cal Water's requested increase reflects some of the following components:

- 5.9% of the increase is for projected water supply costs
- 73.8% of the increase is for water infrastructure improvements
- 20.2% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 254 Commission Street, Salinas, CA 93901, (831) 757-3644. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

**Notification of Application Filed by California Water Service Company
for a Rate Increase in its Selma District
Application No. 15-07-015**

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Selma District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Selma District of \$1,243,429, or 24.6% for 2017, \$140,797, or 2.2%, for 2018 and \$138,403, or 2.2%, for 2019. The total revenue increase over the three years would be \$1,522,629 or 30.1%.

Estimated Revenue Increases (by type of service)

Type of Service Provided	2017 \$		2018 \$		2019 \$	
	Increase	%	Increase	%	Increase	%
Residential Metered Service	1,188,484	34.6	113,674	2.4	102,275	2.2
Residential Flat Rate Service	3,172	34.6	N/A**	N/A**	N/A**	N/A**
*Nonresidential Metered Service	424,667	34.6	40,154	2.4	36,128	2.2

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

**Flat-rate customers will be converted to metered billing.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 16,457 gallons (22 Ccf) of water per month and a flat-rate service customer with a lot size between 6,001 and 10,000 square feet. These numbers do not include surcharges and credits.

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$		2018 \$		2019 \$	
		Increase	%	Increase	%	Increase	%
5/8" x 3/4" meter	49.52	17.11	34.6	1.63	2.4	1.47	2.2
Flat-rate	66.53	22.99	34.6	2.18	2.4	1.97	2.2

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Selma District, Cal Water's requested increase reflects the following components:

- 1.7% of the increase is for projected water supply costs
- 67.9% of the increase is for water infrastructure improvements
- 30.4% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified,

inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 2042 Second Street, Selma, CA 93662, (559) 896-4546. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at www.ora.cpuc.ca.gov

**Notification of Application Filed by California Water Service Company
for a Rate Increase in its Stockton District
Application No. 15-07-015**

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Stockton District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Stockton District of \$8,857,113, or 24.3%, for 2017, \$3,186,977, or 7.0%, for 2018 and \$3,175,797, or 6.5%, for 2019. The total revenue increase over the three years would be \$15,219,888 or 41.7%.

Estimated Revenue Increases (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	4,072,054	18.8	1,869,451	7.2	1,804,343	6.5
Nonresidential Metered Service	3,116,065	18.8	1,420,942	7.2	1,371,454	6.5

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 8,977 gallons (12 Ccf) of water per month. These numbers do not include surcharges and credits.

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	42.72	8.05	18.8	3.68	7.2	3.56	6.5

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Stockton District, Cal Water's requested increase reflects the following components:

- 20.7% of the increase is for projected water supply costs
- 61.1% of the increase is for water infrastructure improvements
- 18.2% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 1505 East Sonora Street, Stockton, CA 95205, (209) 547-7900. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application; ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service Company for a Rate Increase in its Visalia District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Visalia District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Visalia District of \$7,218,599, or 26.9%, for 2017, \$1,190,647, or 3.5%, for 2018 and \$806,582, or 2.3%, for 2019. The total revenue increase over the three years would be \$9,215,829 or 34.3%.

Type of Service Provided	Estimated Revenue Increases (by type of service)					
	2017 \$	%	2018 \$	%	2019 \$	%
Residential Metered Service	2,694,732	14.7	438,533	2.0	512,743	2.3
*Nonresidential Metered Service	1,674,906	14.7	251,312	2.0	293,840	2.3

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 14,213 gallons (19 Ccf) of water per month. These numbers do not include surcharges and credits.

Residential Customer	Current \$	Typical Residential Customer Bill Increase			
		2017 \$	%	2018 \$	2019 \$
5/8" x 3/4" meter	35.11	5.05	14.4	0.80	0.94

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Visalia District, Cal Water's requested increase reflects the following components:

- 8.8% of the increase is for projected water supply costs
- 57.9% of the increase is for water infrastructure improvements
- 33.3% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 216 North Valley Oaks Drive, Visalia, CA 93292, (559) 624-1600. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 14,213 gallons (19 Ccf) of water per month. These numbers do not include surcharges and credits.

Residential Customer	Current \$	Typical Residential Customer Bill Increase					
		2017 \$ %		2018 \$ %		2019 \$ %	
	Increase			Increase		Increase	
5/8" x 3/4" meter	35.11	5.05	14.4	0.80	2.0	0.94	2.3

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Visalia District, Cal Water's requested increase reflects the following components:

- 8.8% of the increase is for projected water supply costs
- 57.9% of the increase is for water infrastructure improvements
- 33.3% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 216 North Valley Oaks Drive, Visalia, CA 93292, (559) 624-1600. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

**Notification of Application Filed by California Water Service Company
for a Rate Increase in its Willows District
Application No. 15-07-015**

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Willows District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Chico, Marysville, Oroville, and Willows Districts to improve affordability and develop administrative efficiencies.

With Consolidation - If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Chico, Marysville, Oroville, and Willows) of \$6,545,081, or 20.3%, for 2017, \$676,337, or 1.7%, for 2018 and \$960,412, or 2.4%, for 2019. With consolidation, the total revenue increase over the three years would be \$8,181,830 or 25.4%.

Willows Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$	%	2018 \$	%	2019 \$	%
Residential Metered Service	116,279	6.4	32,157	1.7	55,736	2.4
*Nonresidential Metered Service	41,221	6.4	15,342	1.7	26,592	2.4

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation - If consolidation is not approved, Cal Water requests revenue increases for its Willows District of \$974,688, or 41.5%, for 2017, \$47,945, or 1.4%, for 2018 and \$109,011, or 3.2%, for 2019. Without consolidation, the total revenue increase over the three years would be \$1,131,644 or 48.2%.

Willows Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$	%	2018 \$	%	2019 \$	%
Residential Metered Service	574,169	34.8	13,941	0.6	69,699	3.2
*Nonresidential Metered Service	283,586	34.8	7,863	0.6	39,312	3.2

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Chico, Marysville, Oroville, and Willows Districts is approved, the bills for a typical residential customer in Willows with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits.**

Willows Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$	%	2018 \$	%	2019 \$	%
5/8" x 3/4" meter	59.86	3.86	6.4	1.01	1.6	1.58	2.4

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted **without consolidation**, the bill of a typical residential customer with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits.**

Willows Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$	%	2018 \$	%	2019 \$	%
5/8" x 3/4" meter	59.86	18.95	31.7	0.44	0.6	2.56	3.2

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Willows District, Cal Water's requested increase reflects some of the following components:

- 3.5% of the increase is for projected water supply costs
- 96.5% of the increase is for water infrastructure improvements

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 1070 West Wood Street, Suite A-1, Willows, CA 95988, (530) 934-4735. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Para más información sobre este aviso por favor llame al número (310) 257-1400 Notification of Application Filed by California Water Service Company for a Rate Increase in its Palos Verdes District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Palos Verdes District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Palos Verdes and Antelope Valley Districts to improve affordability and develop administrative efficiencies.

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Palos Verdes and Antelope Valley) of \$6,500,956, or 14.0%, for 2017, \$3,119,937, or 5.9%, for 2018 and \$3,146,647, or 5.6%, for 2019. With consolidation, the total revenue increase over the three years would be \$12,767,540 or 27.6%.

Palos Verdes Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	5,626,888	16.8	4,782,560	12.2	2,310,792	5.6
*Nonresidential Metered Service	1,558,222	16.8	1,309,737	12.2	632,827	5.6

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved, Cal Water requests revenue increases for its Palos Verdes District of \$5,541,121, or 12.6%, for 2017, \$3,233,349, or 6.5%, for 2018 and \$3,233,434, or 6.1%, for 2019. Without consolidation, the total revenue increase over the three years would be \$12,007,904 or 27.4%.

Palos Verdes Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	5,167,073	15.4	2,905,156	7.5	2,535,843	6.1
*Nonresidential Metered Service	1,433,210	15.4	799,187	7.5	697,991	6.1

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Palos Verdes and Antelope Valley Districts is approved, the bills for a typical residential customer in Palos Verdes with a 5/8" x 3/4" meter using 17,205 gallons (23 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits.

Palos Verdes Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	108.56	18.19	16.8	15.46	12.2	8.00	5.6

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 17,205 gallons (23 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits.

Palos Verdes Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	108.56	16.71	15.4	9.39	7.5	8.27	6.1

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Palos Verdes District, Cal Water's requested increase reflects some of the following components:

- 78.6% of the increase is for water infrastructure improvements
- 21.4% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 2632 West 237th Street, Torrance, CA 90505, (310) 257-1400. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. Notification of Application Filed by California Water Service Company for a Rate Increase in Its Westlake District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Westlake District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Westlake District of \$1,585,744, or 9.1%, for 2017, \$161,941, or 0.8%, for 2018 and \$162,141, or 0.8%, for 2019. The total revenue increase over the three years would be \$1,909,826 or 10.9%.

Estimated Revenue Increases (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	1,236,981	10.6	147,260	1.2	105,582	6.5
*Nonresidential Metered Service	541,011	10.6	73,710	1.2	52,849	6.5
Reclaimed Metered Service	51,335	7.2	5,175	0.7	3,710	0.5

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 21,694 gallons (29 Ccf) of water per month. **These numbers do not include surcharges and credits.**

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	144.77	11.33	7.8	1.21	0.8	1.32	0.8

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Westlake District, Cal Water's requested increase reflects the following components:

- 22.3% of the increase is for projected water supply costs
- 55.9% of the increase is for water infrastructure improvements
- 21.7% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 2524 Townsgate Road, Suite A, Thousand Oaks, CA 91361, (805) 497-2757. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Notification of Application Filed by California Water Service Company for a Rate Increase in its Antelope Valley - Fremont Valley/Lake Hughes District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Antelope Valley - Fremont Valley/Lake Hughes District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Palos Verdes and Antelope Valley Districts to improve affordability and develop administrative efficiencies.

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Palos Verdes and Antelope Valley) of \$6,500,956, or 14.0%, for 2017, \$3,119,937, or 5.9%, for 2018 and \$3,146,647, or 5.6%, for 2019. With consolidation, the total revenue increase over the three years would be \$12,767,540 or 27.6%.

Antelope Valley - Fremont Valley/Lake Hughes Estimated Revenue Increases with Consolidation

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
General Metered Service	22,368	6.4	21,836	5.9	31,876	5.6

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved, Cal Water requests revenue increases for its Antelope Valley - Fremont Valley/Lake Hughes District of \$150,694, or 39.2%, for 2017, \$4,345, or 0.8%, for 2018 and \$4,364, or 0.8%, for 2019. Without consolidation, the total revenue increase over the three years would be \$159,403 or 41.5%.

Antelope Valley - Fremont Valley/Lake Hughes Estimated Revenue Increases without Consolidation

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
General Metered Service	187,620	54.0	8,706	1.6	4,364	0.8

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Palos Verdes and Antelope Valley Districts is approved, the bills for a typical residential customer in Antelope Valley - Fremont Valley/Lake Hughes with a 5/8" x 3/4" meter using 5,236 gallons (7 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits, except the RSF credit.**

Antelope Valley - Fremont Valley/Lake Hughes Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	82.12	3.25	4.0	3.17	3.7	4.98	5.6

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted **without consolidation**, the bill of a typical residential customer with a 5/8" x 3/4" meter using 5,236 gallons (7 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits, except the RSF credit.**

Antelope Valley - Fremont Valley/Lake Hughes Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	82.12	27.26	33.2	1.27	1.2	0.90	0.8

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Antelope Valley - Fremont Valley/Lake Hughes District, Cal Water's requested increase reflects some of the following components:

- 78.6% of the increase is for water infrastructure improvements
- 21.4% of the increase is for projected operation and maintenance expenses

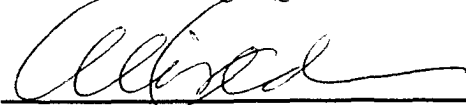

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Antelope Valley - Fremont Valley/Lake Hughes District, Cal Water's requested increase reflects some of the following components:

- 78.6% of the increase is for water infrastructure improvements
- 21.4% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 5015 West Avenue L-14, Unit 2, Quartz Hill, CA 93536, (800) 680-1160. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Stay Informed

The CPUC offers a free Subscription Service which is available on the CPUC website at www.cpuc.ca.gov which allows you to follow this proceeding. If you would like to learn how you can participate in the proceeding, or if you have informal comments or questions about the CPUC process, you may contact the CPUC's Public Advisor's Office at the address noted below.

Notification of Application Filed by California Water Service Company for a Rate Increase in its Antelope Valley - Lancaster District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Antelope Valley - Lancaster District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Palos Verdes and Antelope Valley Districts to improve affordability and develop administrative efficiencies.

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Palos Verdes and Antelope Valley) of \$6,500,956, or 14.0%, for 2017, \$3,119,937, or 5.9%, for 2018 and \$3,146,647, or 5.6%, for 2019. With consolidation, the total revenue increase over the three years would be \$12,767,540 or 27.6%.

Antelope Valley - Lancaster Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	80,655	6.4	78,941	5.9	91,067	5.6
*Nonresidential Metered Service	10,822	6.4	10,464	5.9	12,072	5.6

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved, Cal Water requests revenue increases for its Antelope Valley - Lancaster District of \$487,596, or 39.2%, for 2017, \$14,058, or 0.8%, for 2018 and \$14,120, or 0.8%, for 2019. Without consolidation, the total revenue increase over the three years would be \$515,774 or 41.5%.

Antelope Valley - Lancaster Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	407,059	34.9	23,392	1.5	12,838	0.8
*Nonresidential Metered Service	40,811	34.9	2,336	1.5	1,282	0.8

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Palos Verdes and Antelope Valley Districts is approved, the bills for a typical residential customer in Antelope Valley - Lancaster with a 5/8" x 3/4" meter using 20,945 gallons (28 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits.**

Antelope Valley - Lancaster Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	138.21	8.90	6.4	8.69	5.9	8.76	5.6

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted **without consolidation**, the bill of a typical residential customer with a 5/8" x 3/4" meter using 20,945 gallons (28 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits.**

Antelope Valley - Lancaster Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	138.21	48.23	34.9	2.77	1.5	1.53	0.8

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Antelope Valley - Lancaster District, Cal Water's requested increase reflects some of the following components:

- 78.6% of the increase is for water infrastructure improvements
- 21.4% of the increase is for projected operation and maintenance expenses

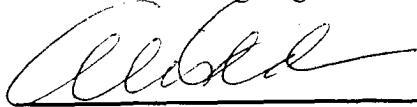

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

- 78.6% of the increase is for water infrastructure improvements
- 21.4% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 5015 West Avenue L-14, Unit 2, Quartz Hill, CA 93536, (800) 680-1160. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Notification of Application Filed by California Water Service Company
for a Rate Increase in its Antelope Valley - LEO District
Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Antelope Valley - LEO District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Palos Verdes and Antelope Valley Districts to improve affordability and develop administrative efficiencies.

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Palos Verdes and Antelope Valley) of \$6,500,956, or 14.0%, for 2017, \$3,119,937, or 5.9%, for 2018 and \$3,146,647, or 5.6%, for 2019. With consolidation, the total revenue increase over the three years would be \$12,767,540 or 27.6%.

Antelope Valley - LEO Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	52,024	6.4	50,826	5.9	62,000	5.6
*Nonresidential Metered Service	5,201	6.4	4,930	5.9	6,014	5.6

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved, Cal Water requests revenue increases for its Antelope Valley - LEO District of \$321,545, or 39.2%, for 2017, \$9,270, or 0.8%, for 2018 and \$9,311, or 0.8%, for 2019. Without consolidation, the total revenue increase over the three years would be \$340,127 or 41.5%.

Antelope Valley - LEO Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	266,172	33.4	17,600	1.6	8,786	0.8
*Nonresidential Metered Service	19,804	33.4	1,053	1.6	526	0.8

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Palos Verdes and Antelope Valley Districts is approved, the bills for a typical residential customer in Antelope Valley - LEO with a 5/8" x 3/4" meter using 15,709 gallons (21 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits, except the RSF credit.

Antelope Valley - LEO Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	157.67	7.24	4.6	6.84	4.1	9.66	5.6

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 15,709 gallons (21 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits, except the RSF credit.

Antelope Valley - LEO Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	157.67	37.57	33.4	3.56	1.8	1.61	0.8

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Antelope Valley - LEO District, Cal Water's requested increase reflects some of the following components:

- 78.6% of the increase is for water infrastructure improvements
- 21.4% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

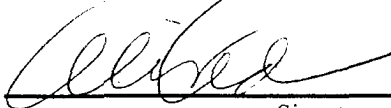

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 5015 West Avenue L-14, Unit 2, Quartz Hill, CA 93536, (800) 680-1160. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505

the South Antelope Valley Foothill News, adjudicated a newspaper of general circulation by the Superior Court of the County of Los Angeles, State of California on May 29, 1967, Case Number NOC564 and adjudicated a newspaper of general circulation for the City of Lancaster, State of California on January 26, 1990, Case Number NOC10714, Modified October 22, 1990; that the notice, of which the annexed is a printed copy (set in type not smaller than nonpareil), has been published in each regular and entire issue of said newspaper and not in any supplement thereof on the following dates, to-wit:

Notification of Application Filed by California Water Service Company for a Rate Increase in its Redwood Valley - Lucerne District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Redwood Valley - Lucerne District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Bayshore and Redwood Valley Districts to improve affordability and develop administrative efficiencies.

With Consolidation - If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Bayshore and Redwood Valley) of \$7,286,895, or 9.1%, for 2017, \$1,299,446, or 1.5%, for 2018 and \$1,298,853, or 1.5%, for 2019. With consolidation, the total revenue increase over the three years would be \$9,885,193 or 12.3%.

Redwood Valley - Lucerne Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
General Metered Service	136,548	6.4	33,437	1.5	33,431	1.5

Without Consolidation - If consolidation is not approved, Cal Water requests revenue increases for its Redwood Valley - Lucerne District of \$821,844, or 37.1%, for 2017, \$-46,035, or -1.5%, for 2018 and \$-45,863, or -1.5%, for 2019. Without consolidation, the total revenue increase over the three years would be \$729,945 or 33.0%.

Redwood Valley - Lucerne Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
General Metered Service	914,839	43.3	-147,299	-4.9	-45,863	-1.5

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Bayshore and Redwood Valley Districts is approved, the bills for a typical residential customer in Redwood Valley - Lucerne with a 5/8" x 3/4" meter using 3,740 gallons (5 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits, except the RSF credit.**

Redwood Valley - Lucerne Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	74.18	3.32	4.5	0.81	1.0	1.14	1.5

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 3,740 gallons (5 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits, except the RSF credit.**

Redwood Valley - Lucerne Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	74.18	22.34	30.1	-10.76	-11.2	-1.32	-1.5

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Redwood Valley - Lucerne District, Cal Water's requested increase reflects some of the following components:

- 82.4% of the increase is for water infrastructure improvements
- 17.6% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 6125 East Highway 20, Lucerne, CA 95458, (707) 274-6624. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Notification of Application Filed by California Water Service Company for a Rate Increase in its Kern River Valley District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Kern River Valley District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Bakersfield and Kern River Valley Districts to improve affordability and develop administrative efficiencies.

With Consolidation - If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Bakersfield and Kern River Valley) of \$8,480,623, or 10.8%, for 2017, \$3,424,323, or 3.9%, for 2018 and \$3,346,429, or 3.7%, for 2019. With consolidation, the total revenue increase over the three years would be \$15,251,375 or 19.5%.

Kern River Valley Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
General Metered Service	401,305	6.4	261,789	3.9	265,341	3.7

Without Consolidation - If consolidation is not approved, Cal Water requests revenue increases for its Kern River Valley District of \$627,708, or 10.0%, for 2017, \$17,079, or 0.2%, for 2018 and \$17,386, or 0.3%, for 2019. Without consolidation, the total revenue increase over the three years would be \$662,173 or 10.6%.

Kern River Valley Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
General Metered Service	647,499	10.4	109,570	1.6	17,386	0.3

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Bakersfield and Kern River Valley Districts is approved, the bills for a typical residential customer in Kern River Valley with a 5/8" x 3/4" meter using 4,488 gallons (6 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits, except the RSF credit.**

Kern River Valley Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	91.46	4.14	4.5	2.70	2.8	3.65	3.7

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 4,488 gallons (6 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits, except the RSF credit.**

Kern River Valley Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	91.46	6.69	7.3	1.13	1.2	0.25	0.3

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Kern River Valley District, Cal Water's requested increase reflects some of the following components:

- 36.8% of the increase is for projected water supply costs
- 55.7% of the increase is for water infrastructure improvements
- 7.5% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 7138 Lake Isabella Boulevard, Lake Isabella, CA 93240, (760) 379-5336. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Stay Informed

The CPUC offers a free Subscription Service which is available on the CPUC website at www.cpuc.ca.gov which allows you to follow this proceeding. If you would like to learn how you can participate in the proceeding, or if you have informal comments or questions about the CPUC process, you may contact the CPUC's Public Advisor's Office at the address noted below.

Email: public_advisor@cpuc.ca.gov Phone: 1-866-849-8390 (toll-free) or 1-415-703-2074
Write: CPUC Public Advisor's Office Phone: 1-866-836-7825 (toll-free) or TTY 1-415-703-5282
505 Van Ness Avenue
San Francisco, CA 94102

Please reference Cal Water's Application No. 15-07-015 in any communications you have with the CPUC regarding this matter. All public comments will become part of the public correspondence file for this proceeding and made available for review for the assigned Judge, the Commissioners, and appropriate CPUC staff.

Notification of Application Filed by California Water Service Company
for a Rate Increase in its Kern River Valley District
Application No. 15-07-015**

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Kern River Valley District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Bakersfield and Kern River Valley Districts to improve affordability and develop administrative efficiencies.

With Consolidation - If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Bakersfield and Kern River Valley) of \$8,480,623, or 10.8%, for 2017, \$3,424,323, or 3.9%, for 2018 and \$3,346,429, or 3.7%, for 2019. With consolidation, the total revenue increase over the three years would be \$15,251,375 or 19.5%.

Kern River Valley Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$		2018 \$		2019 \$	
	Increase	%	Increase	%	Increase	%
General Metered Service	401,305	6.4	261,789	3.9	265,341	3.7

Without Consolidation - If consolidation is *not* approved, Cal Water requests revenue increases for its Kern River Valley District of \$627,708, or 10.0%, for 2017, \$17,079, or 0.2%, for 2018 and \$17,386, or 0.3%, for 2019. Without consolidation, the total revenue increase over the three years would be \$662,173 or 10.6%.

Kern River Valley Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$		2018 \$		2019 \$	
	Increase	%	Increase	%	Increase	%
General Metered Service	647,499	10.4	109,570	1.6	17,386	0.3

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Bakersfield and Kern River Valley Districts is approved, the bills for a typical residential customer in Kern River Valley with a 5/8" x 3/4" meter using 4,488 gallons (6 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits, except the RSF credit.**

Kern River Valley Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$		2018 \$		2019 \$	
		Increase	%	Increase	%	Increase	%
5/8" x 3/4" meter	91.46	4.14	4.5	2.70	2.8	3.65	3.7

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted *without consolidation*, the bill of a typical residential customer with a 5/8" x 3/4" meter using 4,488 gallons (6 Ccf) of water per month would resemble those below. **These numbers do not include surcharges and credits, except the RSF credit.**

Kern River Valley Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$		2018 \$		2019 \$	
		Increase	%	Increase	%	Increase	%
5/8" x 3/4" meter	91.46	6.69	7.3	1.13	1.2	0.25	0.3

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Kern River Valley District, Cal Water's requested increase reflects some of the following components:

- 36.8% of the increase is for projected water supply costs
- 55.7% of the increase is for water infrastructure improvements
- 7.5% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 7138 Lake Isabella Boulevard, Lake Isabella, CA 93240, (760) 379-5336. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Notification of Application Filed by California Water Service Company for a Rate Increase in its Redwood Valley - Unified District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Redwood Valley - Unified District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Bayshore and Redwood Valley Districts to improve affordability and develop administrative efficiencies.

With Consolidation - If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Bayshore and Redwood Valley) of \$7,286,896, or 9.1%, for 2017, \$1,299,446, or 1.6%, for 2018 and \$1,298,853, or 1.5%, for 2019. With consolidation, the total revenue increase over the three years would be \$9,885,193 or 12.3%.

Redwood Valley - Unified Estimated Revenue Increases with Consolidation (by type of service)

Table with 6 columns: Type of Service Provided, 2017 \$ Increase, %, 2018 \$ Increase, %, 2019 \$ Increase, %. Row: General Metered Service, 60,903, 6.4, 12,465, 1.5, 12,461, 1.5.

Without Consolidation - If consolidation is not approved, Cal Water requests revenue increases for its Redwood Valley - Unified District of \$68,629, or 8.6%, for 2017, \$39,002, or 4.5%, for 2018 and \$39,038, or 4.3%, for 2019. Without consolidation, the total revenue increase over the three years would be \$146,669 or 18.4%.

Redwood Valley - Unified Estimated Revenue Increases without Consolidation (by type of service)

Table with 6 columns: Type of Service Provided, 2017 \$ Increase, %, 2018 \$ Increase, %, 2019 \$ Increase, %. Row: General Metered Service, 75,877, 9.6, 46,399, 6.4, 39,038, 4.3.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation

If Cal Water's proposed consolidation of the Bayshore and Redwood Valley Districts is approved, the bills for a typical residential customer in Redwood Valley - Unified with a 5/8" x 3/4" meter using 3,740 gallons (5 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits, except the RSF credit.

Redwood Valley - Unified Typical Residential Customer Bill Increase with Consolidation

Table with 6 columns: Residential Customer, 2017 \$ Increase, %, 2018 \$ Increase, %, 2019 \$ Increase, %. Row: 5/8" x 3/4" meter, 89.57, 4.31, 1.06, 1.1, 1.39, 1.5.

Typical Customer Impact without Consolidation

If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 3,740 gallons (5 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits, except the RSF credit.

Redwood Valley - Unified Typical Residential Customer Bill Increase without Consolidation

Table with 6 columns: Residential Customer, 2017 \$ Increase, %, 2018 \$ Increase, %, 2019 \$ Increase, %. Row: 5/8" x 3/4" meter, 89.57, 7.2, 3.93, 4.1, 4.31, 4.3.

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Redwood Valley - Unified District, Cal Water's requested increase reflects some of the following components:

- 82.4% of the increase is for water infrastructure improvements
• 17.6% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 14034 Armstrong Woods Road, Guerneville, CA 95446, (707) 869-0050. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

See back

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Stay Informed

The CPUC offers a free Subscription Service which is available on the CPUC website at www.cpuc.ca.gov which allows you to follow this proceeding. Notification of Application Filed by California Water Service Company
for a Rate Increase in its Bear Gulch District
Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Bear Gulch District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Bear Gulch District of \$7,421,492, or 15.6%, for 2017, \$2,065,971, or 3.8%, for 2018 and \$2,060,974, or 3.6%, for 2019. The total revenue increase over the three years would be \$11,548,437 or 24.3%.

Estimated Revenue Increases (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	5,056,442	11.9	1,801,514	3.8	1,786,652	3.6
Nonresidential Metered Service	869,335	11.9	276,603	3.8	274,322	3.6

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 18,701 gallons (25 Ccf) of water per month. These numbers do not include surcharges and credits.

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	172.94	20.56	11.9	7.32	3.8	7.25	3.6

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Bear Gulch District, Cal Water's requested increase reflects the following components:

- 81.2% of the increase is for water infrastructure improvements
- 16.8% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 3525 Alameda De Las Pulgas, Menlo Park, CA 94025, (650) 561-9709. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Notification of Application Filed by California Water Service Company for a Rate Increase in its Chico District
Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Chico District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application
The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. As part of its GRC, Cal Water has proposed consolidating operations and rate-making for its Chico, Marysville, Oroville, and Willows Districts to improve affordability and develop administrative efficiencies.

With Consolidation – If this consolidation is approved by the CPUC as proposed, Cal Water requests revenue increases for the combined district (Chico, Marysville, Oroville, and Willows) of \$5,545,081, or 20.3%, for 2017, \$576,337, or 1.7%, for 2018 and \$960,412, or 2.4%, for 2019. With consolidation, the total revenue increase over the three years would be \$8,181,830 or 25.4%.

Chico Estimated Revenue Increases with Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	2,581,842	18.4	-23,818	-0.1	419,594	2.4
*Nonresidential Metered Service	1,663,925	18.4	-12,564	-0.1	220,424	2.4

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Without Consolidation – If consolidation is not approved, Cal Water requests revenue increases for its Chico District of \$4,147,330, or 19.1%, for 2017, \$401,865, or 1.6%, for 2018 and \$697,548, or 2.7%, for 2019. Without consolidation, the total revenue increase over the three years would be \$5,246,743 or 24.2%.

Chico Estimated Revenue Increases without Consolidation (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	1,668,151	12.0	476,195	2.9	433,315	2.7
*Nonresidential Metered Service	1,109,780	12.0	290,380	2.9	264,233	2.7

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

The tables below detail the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 were adopted.

Typical Customer Impact with Consolidation
If Cal Water's proposed consolidation of the Chico, Marysville, Oroville, and Willows Districts is approved, the bills for a typical residential customer in Chico with a 5/8" x 3/4" meter using 15,709 gallons (21 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits.

Chico Typical Residential Customer Bill Increase with Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	46.48	\$ 72	15.8	-0.07	-0.1	1.34	2.4

Typical Customer Impact without Consolidation
If Cal Water's proposal is adopted without consolidation, the bill of a typical residential customer with a 5/8" x 3/4" meter using 15,709 gallons (21 Ccf) of water per month would resemble those below. These numbers do not include surcharges and credits.

Chico Typical Residential Customer Bill Increase without Consolidation

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	46.48	5.71	12.3	1.55	3.0	1.43	2.7

Reasons for Increase
Cal Water has been providing water in California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Chico District, Cal Water's requested increase reflects some of the following components:

- 3.5% of the increase is for projected water supply costs
- 88.5% of the increase is for water infrastructure improvements

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application
A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 2222 Dr. Martin Luther King Jr. Parkway, Chico, CA 95928, (530) 893-8300. An electronic or paper copy of said application and related exhibits will be furnished by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon.

The CPUC's Process
This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at: <http://ora.ca.gov/default.aspx>.

**Notification of Application Filed by California Water Service Company
for a Rate Increase in its Dixon District
Application No. 15-07-015**

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Dixon District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Dixon District of \$799,774, or 26.2%, for 2017, \$131,703, or 3.4%, for 2018 and \$131,324, or 3.3%, for 2019. The total revenue increase over the three years would be \$1,062,800 or 34.8%.

Estimated Revenue Increases (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	655,537	27.3	133,559	4.4	104,066	3.3
*Nonresidential Metered Service	171,197	27.3	34,982	4.4	27,257	3.3

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month. **These numbers do not include surcharges and credits.**

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	67.73	18.41	27.2	3.75	4.4	2.96	3.3

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Dixon District, Cal Water's requested increase reflects the following components:

- 54.7% of the increase is for water infrastructure improvements
- 45.3% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 201 South First Street, Dixon, CA 95620, (707) 678-5928. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

Notification of Application Filed by California Water Service Company for a Rate Increase in its East Los Angeles District
Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the East Los Angeles District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its East Los Angeles District of \$4,505,021, or 13.5%, for 2017, \$1,312,206, or 3.5%, for 2018 and \$1,311,744, or 3.4%, for 2019. The total revenue increase over the three years would be \$7,128,971 or 21.4%.

Estimated Revenue Increases (by type of service)

Table with 6 columns: Type of Service Provided, 2017 \$ Increase, %, 2018 \$ Increase, %, 2019 \$ Increase, %. Rows include Residential Metered Service and Nonresidential Metered Service.

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month. These numbers do not include surcharges and credits.

Typical Residential Customer Bill Increase

Table with 8 columns: Residential Customer, Current \$, 2017 \$ Increase, %, 2018 \$ Increase, %, 2019 \$ Increase, %. Row for 5/8" x 3/4" meter.

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the East Los Angeles District, Cal Water's requested increase reflects the following components:

- 54.6% of the increase is for water infrastructure improvements.
45.4% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 2000 South Tubeway, Commerce, CA 90040, (323) 722-8601. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at http://ora.ca.gov/default.aspx.

PROOF OF PUBLICATION

(2015.5 C.C.P.)

State of California)
County of LOS ANGELES) ss

Notice Type: BID - NOTICE INVITING BIDS

Ad Description:

Benson Avenue Extension Trunk Sewer Rehabilitation

I am a citizen of the United States and a resident of the State of California over the age of eighteen years, and not a party to or interested in the above entitled matter. I am the principal clerk of the printer and publisher of the LOS ANGELES INDEPENDENT, a newspaper published in the English language in the city of LOS ANGELES, county of LOS ANGELES, and adjudged a newspaper of general circulation as defined by the laws of the State of California by the Superior Court of the County of LOS ANGELES, State of California, under date 08/13/1987, Case No. 392931. That the notice, of which the annexed is a printed copy, has been published in each regular and extra issue of said newspaper and not in any supplement thereof on the following dates, to-wit:

07/30/2015

Executed on: 07/30/2015
At Los Angeles, California

I certify (or declare) under penalty of perjury that the foregoing is true and correct.

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 9,725 gallons (13 Ccf) of water per month. **These numbers do not include surcharges and credits.**

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	63.43	7.28	11.5	2.87	4.1	2.47	3.4

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the East Los Angeles District, Cal Water's requested increase reflects the following components:

- 54.6% of the increase is for water infrastructure improvements.
- 45.4% of the increase is for projected operation and maintenance expenses.

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 2000 South Tubeway, Commerce, CA 90040, (323) 722-8601. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. June 10, 1974

Case Number SWC7146
that the notice, of which the annexed is a printed copy (set in type not smaller than nonpareil), has been published in each regular and entire issue of said newspaper and not in any supplement there of on the following dates, to-wit

July 31,

all in the year 2015

the foregoing is true and correct.

Dated at Torrance

California, this 31 July 2015

*The Daily Breeze circulation includes the following cities:
Carson, Compton, Culver City, El Segundo, Gardena, Harbor City, Hawthorne, Hermosa Beach, Inglewood, Lawndale, Lomita, Long Beach, Manhattan Beach, Palos Verdes Peninsula, Palos Verdes, Rancho Palos Verdes, Rancho Palos Verdes Estates, Redondo Beach, San Pedro, Santa Monica, Torrance and Wilmington

Para más información sobre este aviso por favor llame al número (310) 257-1400 Notification of Application Filed by California Water Service Company for a Rate Increase in its Hermosa-Redondo District Application No. 15-07-015

California Water Service (Cal Water) has filed an application with the California Public Utilities Commission (CPUC) to increase rates for providing water service. To justify this increase for the Hermosa-Redondo District in years 2017-2019, Cal Water has presented an estimate of its costs in a formal CPUC proceeding, called a General Rate Case (GRC) application.

The Application

The CPUC requires Cal Water to submit GRC applications every three years to ensure that water rates accurately reflect the cost of providing water service. Cal Water requests revenue increases in its Hermosa-Redondo District of \$1,636,063, or 5.6%, for 2017, \$1,903,023 or 6.2%, for 2018 and \$1,902,128, or 5.8%, for 2019. The total revenue increase over the three years would be \$5,441,214 or 18.6%.

Estimated Revenue Increases (by type of service)

Type of Service Provided	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
Residential Metered Service	1,679,522	10.3	1,228,920	6.8	1,115,704	5.8
*Nonresidential Metered Service	1,165,202	10.3	850,382	6.8	772,040	5.8
Reclaimed Metered Service	21,695	10.3	15,843	6.8	14,384	5.8

*Nonresidential Metered Service applies to all customer classes that are not residential (such as business, multi-family, and public authority customers) and do not have a separate tariff.

Typical Customer Impact

The table below details the increase a typical residential customer would see in his or her bill if Cal Water's proposed rates for 2017, 2018, and 2019 are approved by the CPUC as requested. The average residential customer bills in the table show a typical residential customer with a 5/8" x 3/4" meter using 8,229 gallons (11 Ccf) of water per month. These numbers do not include surcharges and credits.

Typical Residential Customer Bill Increase

Residential Customer	Current \$	2017 \$ Increase	%	2018 \$ Increase	%	2019 \$ Increase	%
5/8" x 3/4" meter	54.11	5.55	10.3	4.05	6.8	3.70	5.8

Reasons for Increase

Cal Water has been providing water to California communities for nearly 90 years, and many of the facilities used for water service have reached the end of their useful lives. For the Hermosa-Redondo District, Cal Water's requested increase reflects the following components:

- 73.8% of the increase is for water infrastructure improvements
- 26.2% of the increase is for projected operation and maintenance expenses

In the filing, Cal Water's proposed rates for 2017-2019 would become effective on January 1, 2017. The rate increases for 2018 and 2019 are derived using the most recent inflation factors provided by the CPUC. The CPUC requires that Cal Water use a simplified, inflation-based, escalation methodology for its proposed rates for those years that are in between GRC test years.

Obtaining a Copy of the Application

A copy of Cal Water's proposed GRC application and related exhibits may be reviewed at Cal Water's office, located at 2832 West 237th Street, Torrance, CA 90505, (310) 257-1400. An electronic or paper copy of the application and related exhibits will be provided by Cal Water upon written request to California Water Service Company, 1720 North First Street, San Jose, CA 95112-4598. Copies are also available to review at the CPUC's Central Files Office in San Francisco at 505 Van Ness Avenue, San Francisco, CA 94102, between the hours of 8:00 a.m. and noon daily.

The CPUC's Process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision determining whether to adopt all or part of Cal Water's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.
