

ATTACHMENT F

PROPOSED TARIFFS

Order of Proposed Tariffs:

- Schedule No. RSF
- Schedule No. CAP
- Preliminary Statements
- Proposed Consolidated Regions
- Existing Individual Districts and Regions

Schedule No. RSF
All Tariff Areas
Rate Support Fund

Page 1

The Rate Support Fund (RSF) Program provides credits on the bills of customers in the Kern River Valley District. It also provides subsidies of \$1,704,784 to the Dixon District and of \$711,852 to the Willows District to reduce the revenue requirements for each of the three years in this rate case cycle (2023-2025). (T)

The RSF Program is funded through surcharges on other customers as specified below.

I. RSF SURCHARGE

A. APPLICABILITY:

Applicable to all water service except that provided:

- (1) for private fire protection services
- (2) under Schedules OR-3M, OR-3M-I, and OR-2UL for raw water delivery along the Powers Canal and
- (3) for CAP customers located in the Kern River Valley District.

B. TERRITORY:

All territories served.

C. SURCHARGE:

An RSF surcharge rate of **0.6601%** will be applied to the basic water charges (identified below) on a customer's bill. (I)

"Basic water charges" as referenced in this Schedule consist of the service charge and quantity charges for a metered customer, and the flat charge for flat-rate customers, after RSF credits are applied; they do not include any other fees, surcharges, or credits.

II. RSF CREDIT

A. APPLICABILITY:

Applicable to all water service in the Kern River Valley District, except that provided for private fire protection services.

Decision	<u>Vice President</u>	Effective _____

Schedule No. CAP
Customer Assistance Program (CAP)

Page 1

The Customer Assistance Program (“CAP”) provides credits on the bills of customers who meet certain qualifications. The CAP was formerly known as the “Low-Income Ratepayer Assistance” or “LIRA” program.

I. CAP CREDIT

A. CREDIT APPLICABILITY

Applicable to individually metered and flat rate residential customers, qualified non-profit group living facilities, qualified agricultural employee housing facilities, and migrant farm worker housing centers where the customer meets all the special conditions of this schedule.

B. CREDIT TERRITORY

All tariffed service areas of the California Water Service Company.

C. CREDIT FOR RESIDENTIAL CUSTOMERS

METERED SINGLE-FAMILY RESIDENTIAL RATES

Quantity Rates: Customers will be charged per 100 cubic feet of water delivered at the metered rates as reflected in the applicable rate schedule for single-family service.

Service Charges: Eligible customers will receive a monthly CAP credit equal to 50% of the 5/8" x 3/4" service charge for single-family residential service, prorated based on the days of service, if service is not provided for a full month. The maximum monthly credit is \$48.00.

FLAT RATE RESIDENTIAL RATES

Eligible customers will be charged the flat rates reflected in the applicable rate schedule for residential flat rate service, with a monthly CAP credit equal to 50% of the 5/8" x 3/4" service charge for metered single-family residential service, prorated based on the days of service, if service is not provided for a full month. The maximum monthly credit is \$48.00.

Schedule No. CAP
Customer Assistance Program (CAP)

Page 2

I. CAP CREDIT (continued)

D. CREDIT FOR NON-RESIDENTIAL CUSTOMERS

QUALIFIED NON-PROFIT GROUP LIVING FACILITIES, QUALIFIED AGRICULTURAL
EMPLOYEE HOUSING FACILITIES, MIGRANT FARM WORKER HOUSING CENTERS

Quantity Rates: Customers will be charged per 100 cubic feet of water delivered at
the metered rates as reflected in applicable rate schedule for single-family service.

Service Charges: Eligible customers will receive a monthly CAP credit of \$20.00,
prorated based on the days of service, if service is not provided for a full month.
The maximum monthly credit per qualifying sub-metered customer is \$20.00.

SPECIAL CONDITIONS:

1. CAP Household: A CAP household is one for which the total gross income from all sources is less than or equal to the maximum household income level for the CARE programs approved by the Commission. Southern California Edison's (Edison) CARE program will be applicable to customers residing within Edison's service area and Pacific Gas and Electric Company's (PG&E) CARE program will be applicable to customers residing within PG&E's service area. Total gross income shall include income from all sources, both taxable and non-taxable. The billed customer must not be a person who is claimed as a dependent on another person's income tax return.
2. Application and Eligibility Declaration: Proof of active participation in a CARE program or an application and eligibility declaration on a form authorized by the Commission is required for each request for service under this schedule. Renewal of a customer's eligibility declaration may be required consistent with CARE program renewal requirements, but not more often than annually. Customers, excluding qualified non-profit group living facilities, qualified agricultural employee housing facilities, and migrant farm worker housing centers, are eligible to receive service under this rate schedule at no more than one residential location at any one time, and the rate applies only to the customer's permanent primary residence.

Schedule No. CAP
Customer Assistance Program (CAP)

3. Commencement of Rate: CAP rates become effective January 1, 2007. After CAP rates are effective eligible customers shall be billed on this schedule commencing no later than one billing period after receipt and approval of the customer's application by the Utility.
4. Verification: Information provided by the applicant is subject to verification by the Utility. Refusal or failure of a customer to provide sufficient documentation of eligibility acceptable to the Utility, upon the request of the Utility, shall result in removal from this rate schedule. Failure to comply with any terms of the CAP program shall result in removal from this rate schedule.
5. Notice from Customer: It is the customer's responsibility to notify the Utility if there is a change in the customer's eligibility status.
6. Customers may be re-billed for periods of ineligibility under the applicable rate schedule.

II. CAP SURCHARGE

A. SURCHARGE APPLICABILITY

Applicable to all water service except that provided for:

- (1) private fire protection services
- (2) under Schedules OR-3M, OR-3M-I, and OR-2UL for raw water delivery along the Powers Canal and
- (3) CAP customers.

B. SURCHARGE TERRITORY

All territories served.

C. RATE SURCHARGE

A CAP surcharge rate of **2.530%** will be applied to the basic water charges (identified below) on a customer's bill. (I)

Schedule No. CAP
Customer Assistance Program (CAP)

Page 4

II. CAP SURCHARGE (continued)

"Basic water charges" as referenced in this Schedule consist of the service charge and quantity charges for a metered customer, and the flat charge for flat-rate customers, after RSF credits are applied; they do not include any other fees, surcharges, or credits.

SPECIAL CONDITIONS

[None]

Preliminary Statement

AA5. Pension Cost Balancing Account (PCBA5)

(N)

1. PURPOSE

The PCBA5 will track the difference between the adopted pension expense and California-regulated pension expense recorded in accordance with Generally Accepted Accounting Principles (GAAP). The adopted and tracked expenses include only the expensed portion of benefits and exclude pension costs assigned to capitalized overhead, capitalized projects, out-of-state affiliates, and unregulated entities.

2. APPLICABILITY

The PCBA5 is effective beginning January 1, 2023, through December 31, 2025, and applies to all ratemaking areas ("districts") and Customer Support Services (General Office). This excludes out-of-state affiliates and unregulated operation expenses.

3. ACCOUNTING PROCEDURE:

The following entries will be recorded annually to the PCBA5:

- a. Annual pension expense as determined by Cal Water's actuarial expert according to the method prescribed by the Financial Accounting Standards Board's Codification pension trust administrative costs such as the ERISA-required Pension Benefit Guaranty Corporation (PBGC) costs. The capitalized portion of pension costs at the adopted capitalization ratio will be excluded.
- b. The annual amount of pension expense authorized to be collected in rates. The capitalized portion of pension costs at the adopted capitalization ratio will be excluded.
- c. The difference between 3.a and 3.b.
- d. The sum of entries in item 3.c., all prior year entries in 3.c., and all accumulated interest calculated in 3.e., below.
- e. Monthly interest expense calculated on the accumulated balance in 3.d. calculated at 1/12 of the most recent month's interest rate on Commercial Paper, published in the Federal Reserve Statistical Release H.15 or its successor. Note that interest only accrues on expenses after the annual calculation has been completed.

Preliminary Statement

AA5. Pension Cost Balancing Account (PCBA5) (continued)

(N)

4. RATEMAKING PROCEDURE:

The PCBA5 is recoverable in a Tier 2 advice letter filing if the accumulated balance exceeds 2% of gross adopted revenues for Cal Water in accordance with General Order 96-B and standard practices or by request in the next general rate case. In any filing, Cal Water shall demonstrate its continued compliance with SFAS 87 and demonstrate that any changes to its expenses were reasonable and prudently incurred.

In any filing, Cal Water will identify any changes in pension accounting that were required by federal or state law or directed by the Financial Accounting Standards Board. Changes in assumptions reflecting current market, interest rate, or demographic conditions should not be considered "changes in accounting" as these are standard practices used to develop SFAS 87 requirements.

Preliminary Statement

AB5. Health Cost Balancing Account 5 (HCBA5)

(N)

1. PURPOSE

The purpose of the Health Cost Balancing Account (HCBA5) is to track the difference between the adopted health care expenses (including post-retirement benefits other than pension or PBOB) and the total actual cost incurred as health care expenses. Eighty-five percent (85%) of the reasonable cost difference will be flowed through to customers, and fifteen (15%) of the reasonable cost difference will be at the company's risk. The difference may be either positive or negative depending upon how actual health care expenses compare to those included in rates.

2. APPLICABILITY

The HCBA5 is effective beginning January 1, 2023, through December 31, 2025, and applies to all Class A ratemaking areas ("districts") and Customer Support Services (General Office). This excludes out-of-state affiliates and unregulated operations expenses.

3. ACCOUNTING PROCEDURE:

There is no rate component to the HCBA5. Cal Water shall record for future disposition the following entries:

- a. Eighty-five percent (85%) of the difference between the adopted health care expenses and the actual cost incurred as health care expenses will be included in the balancing account, as either a debit or a credit balance depending upon if the actual costs exceed or are less than the amounts adopted in rates. The capitalized portion of health care expenses at the adopted capitalization ratio will be excluded.
- b. A monthly debit or credit entry equal to the average balance in each segment of the account multiplied by 1/12th of the most recent month's interest rate on Commercial Paper (prime, 90-day) published in the Federal Reserve Statistical Release H-15.

4. DISPOSITION:

The HCBA5 is recoverable or refundable in a Tier 2 advice letter filing if the accumulated balance exceeds 2% of gross adopted annual revenues for Cal Water in accordance with General Order 96-B and standard practices, or by request in a general rate case.

(N)

Preliminary Statement

AM. Rate Support Fund Balancing Account (RSF BA)

1. Purpose

The purpose of the Rate Support Fund Balancing Account ("RSFBA") is to track the Rate Support Fund ("RSF") subsidies (credits) provided to customers in certain ratemaking areas, to track the RSF surcharges collected to fund the Rate Support Fund ("RSF") Program, and to review and adjust the RSF surcharge, if necessary, for the following year.

As described in Tariff Schedule No. RSF, for the rate case cycle of 2023-2025, the RSF Program provides credits on the bills of customers in the Kern River Valley District, and provides subsidies of \$1,704,784 and \$711,852 to the Dixon and Willows Districts, respectively, to reduce their annual revenue requirements. The amount of the surcharge will be set sufficient to fund the RSF program.

For the Kern River Valley District, the RSF subsidies tracked in this account provide a discounted quantity rate for the first 10 units of consumption per month on a customer's bill. The quantity rate discount is the difference between the lowest adopted quantity rate in the service area, and an RSF Index Rate (Discounted RSF Quantity Rate). The RSF Index Rate is calculated by applying 125% to Cal Water's system-wide average rate of total residential usage revenues divided by total residential quantity water sales.

2. Timing and Frequency

An advice letter to report on the status of the RSF surcharge will be filed by October 31st of each year.

3. Annual Surcharge Adjustment

The surcharge may be adjusted to zero out the forecasted balance anticipated to be in the account at the end of the following year.

4. Rate

The rate components of the RSF BA are identified in Tariff Schedule No. RSF.

Preliminary Statement

AM. Rate Support Fund Balancing Account (RSF BA) (continued)

5. Accounting Procedure

The following entries will be made monthly to the RSF BA:

- a. A debit entry equal to the recorded RSF credits (subsidies) given to customers for service provided under Schedule No. RSF;
- b. A debit entry of \$1,704,784 for each of the three years in the 2023-2025 rate case cycle to reflect the subsidies that offset the revenue requirements of the Dixon District;
- c. A debit entry of \$711,852 for each of the three years in the 2023-2025 rate case cycle to reflect the subsidies that offset the revenue requirements of the Willows District;
- d. A credit entry equal to the recorded RSF surcharges collected from all customers (except for LIRA customers in the Kern River Valley District) as provided under Schedule No. RSF;
- e. A monthly debit or credit entry equal to the average balance in each segment of the account multiplied by 1/12th of the most recent month's interest rate on Commercial Paper (prime, 90-day) published in the Federal Reserve Statistical Release H-15.

Preliminary Statement

AS. Asbestos Litigation Memorandum Account (ALMA)

1. PURPOSE

The Asbestos Litigation Memorandum Account (“ALMA”) will track costs, settlement payments, judgments and credits related to litigation arising from alleged exposure to asbestos from asbestos-cement (“AC”) water pipes in Cal Water’s service areas.

2. APPLICABILITY

The ALMA is effective beginning January 1, 2015 through December 31, 2025, unless (C) the California Public Utilities Commission authorizes an extension. The ALMA applies to all districts.

3. ACCOUNTING PROCEDURE

Cal Water shall make the entries described below on a monthly basis. Cal Water shall only record costs for outside services related to defending against asbestos litigation lawsuits and seeking indemnification or cost recovery from insurers, developers, contractors, or other involved parties. Cal Water shall not record any costs for internal services related to defending against asbestos litigation lawsuits and seeking indemnification or cost recovery from insurers, developers, contractors, or other involved parties. Cal Water shall only record the following outside services costs related to asbestos litigation to the memorandum account:

- a. Filing and court fee costs
- b. Attorney fees
- c. Legal representation administrative costs
- d. Legal representation travel costs
- e. Litigation support costs
- f. Investigative costs
- g. Court reporter costs
- h. Deposition costs
- i. Expert witness fees
- j. Expert witness administrative costs
- k. Witness representation costs
- l. Witness travel costs
- m. Insurance coverage attorney costs
- n. Other reasonable and justified costs from outside service providers directly tied asbestos litigation cases.

Decision	<u>Vice President</u>	Effective _____

Preliminary Statement

Page 2

AS. Asbestos Litigation Memorandum Account (ALMA) (continued)

3. ACCOUNTING PROCEDURE (continued)

Cal Water may record in the ALMA payments made according to settlement agreements in litigation related to alleged asbestos exposure. Cal Water may record in the ALMA judgment against it in litigation related to alleged asbestos exposure.

Cal Water shall record any recovery or compensation of costs from outside sources as a credit to the memorandum account. Any recovery or compensation of costs recorded in the memo account is to be credited against the costs recorded in the memorandum account, including recovery or compensation received after any expiration of the memorandum account. Costs that shall be treated as a credit in the memorandum account include, but are not limited to:

- a. Developer indemnity
- b. Developer reimbursement of expenses
- c. Developer insurance reimbursement
- d. Contractor indemnity
- e. Contractor insurance reimbursement
- f. Contribution by other defendants
- g. Court awards
- h. Settlement Awards

Pursuant to Standard Practice U-27-W ("SP U-27") of the Water Division, the ALMA will earn interest at the 90-day commercial paper rate.

4. DISPOSITION

Cal Water shall seek recovery of costs recorded in the memorandum account if triggered under SP U-27, or at the end of the five-year term of the memorandum account. The request shall be in a filing that is in accordance with SP U-27 and General Order 96-B, Water Industry Rule 7.3.3.

(End)

Preliminary Statement

AV. 2018 Tax Accounting Memorandum Account (TAMA)

1. Purpose: The purposes of the 2018 Tax Accounting Memorandum Account (TAMA) are: (T)
 (1) to track on a CPUC-jurisdictional revenue requirement basis the impacts of the (T)
 "2018 Tax Cuts and Jobs Act" (TJCA) not otherwise reflected in rates from January 1, (L)
 2018 through December 31, 2019 (TCJA Memo Account Period); and (2) to track the (N)
 income tax expense associated with any grants awarded to Cal Water. (N)

2. General Information: Cal Water shall record in the TAMA realized increases or
 decreases in its CPUC-jurisdictional revenue requirement resulting from the TJCA. The
 Memo Account shall be used in determining whether any rate adjustment is necessary (N)
 to reflect impacts of the TJCA during the TCJA Memo Account Period. The Memo (N)
 Account shall also be used to track the income tax expense associated with any grants (N)
 awarded to Cal Water. (N)

3. Territory: All tariffed service areas of California Water Service Company.
 Memo Account Entries: The entries in the Memo Account may include the following:
 - a. Realized decreases in revenue requirement resulting from the TCJA during the TCJA (T)
 Memo Account Period.
 - b. Realized increases in revenue requirement resulting from the TCJA during the TCJA (T)
 Memo Account Period.
 - c. Income tax expense associated with grants awarded to Cal Water. (N)
 - d. Balances in the Memo Account will accrue interest at the 90-day commercial paper
 rate.

4. Disposition of Memo Account Balance:

Cal Water will file an advice letter to address the TCJA-related balance by 12/31/2020, (C)
 or by such other time as ordered by the Commission. The TCJA balance in the Memo (C)
 Account shall be addressed and rates shall be adjusted accordingly, as appropriate.

The TAMA will continue to 12/31/2022 to track grant-related income tax expenses, (N)
 which will be addressed in Cal Water's next general rate case or at such other time as (N)
 ordered by the Commission. (N)

(End)

Preliminary Statement

M. Monterey-Style Water Revenue Adjustment Mechanism Balancing Account (M-WRAM)

(N)

1. PURPOSE:

The purpose of this M-WRAM Balancing Account is to track the quantity rate revenues collected under each residential tiered rates schedule against the revenues that would have been collected under a single quantity rate.

2. APPLICABILITY:

All ratemaking areas with residential tiered quantity rates.

3. ACCOUNTING:

The following entries will be made monthly to the account:

- a. The recorded revenues collected through the tiered quantity rates under each area's residential metered service rate schedule (debit).
- b. The calculated revenues that would have been collected under a single block quantity rate for the same recorded water usage as in **Item 3a**, above (credit).
- c. The CPUC-adopted single quantity rates (\$/ccf) to be used in calculating the revenues for **Item 3b**, above, are reflected in **Item 5**, below.
- d. Franchise fees and uncollectible account expense, based on the net of **Items 3a and 3b**, above, and the CPUC-adopted rates for franchise fees and uncollectible expenses.
- e. Currently effective amortization rate (\$/ccf) collections or refunds.
- f. Monthly interest calculated at 1/12 of the most recent month's interest rate on Commercial Paper (prime, 3-month), published in the Federal Reserve Statistical Release, H.15 (<http://www.federalreserve.gov/releases/H15/data/m/cp3m.txt>), or its successor publication.

4. DISPOSITION:

The balance in the balancing account shall be amortized by a Tier 1 advice letter whenever the balance exceeds 2% of authorized revenue requirement for the preceding calendar year. If the balance is below 2%, Cal Water shall propose its amortization in a general rate case.

(N)

Willows	January 1, 2023	\$x.xxxx

(N)

Preliminary Statement

Z5. Conservation Expense One-Way Balancing Account 5 (CEBA5)

(N)

1. PURPOSE:

The purpose of the CEBA5 is to ensure customers fund only conservation programs consistent with the Commission's decision in Cal Water's 2021 General Rate Case. The account will track the difference between recorded expenses and authorized expenses, and refund to customers amounts included in rates that were not spent during the three-year authorization period.

2. APPLICABILITY:

The CEBA5 covers years 2023 through 2025 for all ratemaking areas ("districts") included in 2021 General Rate Case.

3. ACCOUNTING PROCEDURE:

The following entries will be recorded monthly to each district's CEBA5.

- a. The average annual authorized amount shown on page __ of the 2021 GRC [*decision or settlement*] will be booked on a monthly level based on the spread of revenue adopted in Cal Water's Preliminary Statement M;
- b. Reimbursements from grants provided to offset conservation expenses;
- c. Recorded conservation expenses including properly accounted-for expense accruals;
- d. The difference between authorized expenses and grants, and recorded expenses (Item 3a. plus Item 3b., minus Item 3c.);
- e. Monthly interest expense calculated on the accumulated balance in Item 3h. for the prior month plus 1/2 of the current monthly balance shown in Item 3d. calculated at 1/12 of the most recent month's interest rate on Commercial Paper, published in the Federal Reserve Statistical Release H.15 or its successor;
- f. The sum of the current and all prior monthly entries in Item 3e., above;
- g. The sum of the current and all prior monthly entries in Item 3d., above;
- h. The sum of Item 3f. and Item 3g.

Preliminary Statement

Z5. Conservation Expense One-Way Balancing Account 5 (CEBA5) (continued)

(N)

4. RATEMAKING PROCEDURE:

- a. Each district's authorized conservation expense has three internal spending caps. Before requesting amortization in rates, Cal Water shall apply these internal spending caps to the totals in Item 3c. and adjust from recorded expense any amounts which exceed categorical limits. Cal Water shall reflect the adjustment in its final calculation of Item 3h. for each district.
- b. If the total amount recorded in Item 3h. for any district as of December 31, 2025 is a positive number (meaning accumulated expenditures are less than the three-year authorization), Cal Water shall file an advice letter to refund this amount to customers.
- c. If the total amount recorded in Item 3h. as of December 31, 2025 for any district is a negative number (meaning the accumulated expenditures exceed the three-year authorization), the balance shall not be collected.

5. TERMINATION OF THE ACCOUNT

The CEBA5 for each applicable district shall terminate on December 31, 2025 or when the credit described in Item 4.b is completed, whichever is later.

Preliminary Statement

XX. Purchased Power Incremental Cost Balancing Account (PP ICBA)

(N)

1. PURPOSE:

The purpose of this Purchased Power Incremental Cost Balancing Account (PP ICBA) is to record the difference between the cost of purchased power and the adopted cost reflected in rates each month so that these differences can be trued-up after Commission review and approval.

2. APPLICABILITY:

The PP ICBA applies to all Class A areas served by Cal Water in which power is purchased to produce and deliver water.

3. ACCOUNTING PROCEDURE:

Each month, Cal Water will make the following entries to update the balance in this account:

- a. Revenue Component (credit entry): the applicable recorded billed sales multiplied by the sum of any base rate changes (\$/ccf) from purchased power cost offsets since the most recent general rate case plus any currently effective amortization rate (\$/ccf), plus or minus any necessary revenue adjustments. The revenue component shall be reduced by the uncollectibles and franchise fees factors most recently authorized by the Commission to arrive at collected revenues.
- b. Expense Component (debit entry): the recorded quantity of purchased power (KwH) multiplied by the difference between the adopted purchased power price in the most recent general rate case (see **Item 5**) and the current purchased power prices (\$/kWh) applied to the adopted water supply mix, plus or minus any necessary expense adjustments.
- c. Interest (debit or credit entry): interest shall accrue monthly by applying one-twelfth of the Federal Reserve 3-month Commercial Paper Rate - non-Financial, from Federal Reserve Statistical Release H.15 (expressed as an annual rate) to the average monthly balance.

4. DISPOSITION:

Cal Water may request amortization of this account by advice letter when the balance reaches 2% of annual revenues, or at any level through in a general rate case.

Preliminary Statement

XX. Purchased Water Incremental Cost Balancing Account (PW ICBA)

(N)

1. PURPOSE:

The purpose of this Purchased Water Incremental Cost Balancing Account (PW ICBA) is to record the difference between the cost of purchased water and the adopted cost reflected in rates each month so that these differences can be trued-up after Commission review and approval.

2. APPLICABILITY:

The Purchase Water ICBA applies to all Class A areas in which Cal Water purchases treated potable water, surface water, or recycled water (collectively, “purchased water”).

3. ACCOUNTING PROCEDURE:

Each month, Cal Water will make the following entries to update the balance in this account:

- a. Revenue Component (credit entry): the applicable recorded billed sales multiplied by the sum of any base rate changes (\$/ccf) from purchased water cost offsets since the most recent general rate case, plus any currently effective amortization rate (\$/ccf), plus or minus any necessary revenue adjustments. The revenue component shall be reduced by the uncollectibles and franchise fees factors most recently authorized by the Commission to arrive at collected revenues.
- b. Expense Component (debit entry): the recorded quantity of purchased water (in AF) multiplied by the difference between the adopted purchase water price in the most recent general rate case (see **Item 5**) and the current purchased water prices (\$/AF) applied to the adopted water supply mix (in AF), plus or minus any necessary expense adjustments.
- c. Interest (debit or credit entry): interest shall accrue monthly by applying one-twelfth of the Federal Reserve 3-month Commercial Paper Rate - non-Financial, from Federal Reserve Statistical Release H.15 (expressed as an annual rate) to the average monthly balance.

4. DISPOSITION:

Cal Water may request amortization of this account by advice letter when the balance reaches 2% of annual revenues, or at any level in a general rate case.

XX. Purchased Water Incremental Cost Balancing Account (PW ICBA) (continued)

(N)

4. DISPOSITION (continued):

The balancing account will terminate when so ordered in a general rate case decision, at which time any remaining debt (under-collection) or credit (over-collection) balance will be amortized through a surcharge or surcredit.

5. ADOPTED PURCHASED WATER COST:

Tariff Area	Type	Calendar Year 2023 (\$/AF)
Antelope Valley (LAR)	Potable	\$560
Bakersfield	Potable	\$451
Bakersfield	Surface	\$89
Bayshore (BAR)	Potable	\$2,116

XX. Pump Tax Incremental Cost Balancing Account (Pump Tax ICBA)

(N)

1. PURPOSE:

The purpose of this Pump Tax Incremental Balancing Account (Pump Tax ICBA) is to record the difference between the cost of pump taxes and the adopted cost reflected in rates each month so that these differences can be trued-up after Commission review and approval.

2. APPLICABILITY:

The Pump Tax ICBA applies to all Class A areas served by Cal Water where groundwater pump taxes (or their equivalent) are assessed.

3. ACCOUNTING PROCEDURE:

Each month, Cal Water will make the following entries to update the balance in this account:

- a. Revenue Component (credit entry): the applicable recorded billed sales multiplied by the sum of any base rate changes (\$/ccf) from pump tax cost offsets since the most recent general rate case plus any currently effective amortization rate (\$/ccf), plus or minus any necessary revenue adjustments. The revenue component shall be reduced by the uncollectibles and franchise fees factors most recently authorized by the Commission to arrive at collected revenues.
- b. Expense Component (debit entry): the recorded quantity of groundwater produced subject to pump taxes (in AF) multiplied by the difference between the adopted pump tax price (\$/AF) in the most recent GRC (see **Item 5**) and the current pump tax prices (\$/AF) applied to the adopted water supply mix (in AF), plus or minus any necessary expense adjustments.
- c. Interest (debit or credit entry): interest shall accrue monthly by applying one-twelfth of the Federal Reserve 3-month Commercial Paper Rate - non-Financial, from Federal Reserve Statistical Release H.15 (expressed as an annual rate) to the average monthly balance.

4. DISPOSITION:

Cal Water may request amortization of this account by advice letter when the balance reaches 2% of annual revenues, or at any level in a general rate case.

Preliminary Statement

XX. Palos Verdes Memorandum Account (PV MA)

(N)

1. Purpose:

The purpose of the Palos Verdes Memorandum Account (PV MA) is to track the incremental costs associated with the Palos Verdes Peninsula Water Reliability Project (PVPWRP) that exceed the amount already authorized in rates, including legal or other costs incurred to bring the matter to resolution.

2. Applicability:

The PV MA is applicable only to customers in the Palos Verdes area of the Los Angeles County Region.

3. Accounting Procedure:

The PV MA will track the following items:

- a. Incremental capital expenditures above the amount authorized in rates.
- b. Amounts equal to the revenue requirement from the incremental capital expenditures (including return on investment, income taxes, ad valorem tax, depreciation, other taxes and fees).
- c. Legal or other costs incurred to bring any disputed matters to resolution.
- d. Interest shall accrue to the PV MA on a monthly basis by applying a rate equal to one-twelfth of the 3-month non-financial Commercial Paper Rate, as reported in the Federal Reserve Statistical Release, to the average of the beginning-of-month and the end-of-month balances.

4. Disposition:

Charges made to the PV MA are subject to a reasonableness review in a General Rate Case, or in an appropriate advice letter filing consistent with General Order 96-B and Standard Practices.

5. Effective Date

The PV MA shall go into effect on January 1, 2023.

(N)

Preliminary Statement

XX. Sustainable Groundwater Management Act Memorandum Account (SGMA MA) (N)

1. PURPOSE:

The SGMA Memorandum Account (SGMA MA) will track the cost of complying with the Sustainable Groundwater Management Act Regulations signed into law September 16, 2014, which set forth a framework for regulating groundwater. The Groundwater Sustainability Agency (GSA) has the legal authority to assess parties (groundwater pumpers, tax payers, property owners, municipalities, etc.) charges and fees to implement the projects identified in the Groundwater Sustainability Plans (GSP) to make the groundwater basin sustainable as early as 2040. The range of projects is unlimited and GSP specific.

2. APPLICABILITY:

All areas served by California Water Service Company.

3. ACCOUNTING PROCEDURE:

Cal Water shall maintain the SGMA MA by making entries at the end of each month as follows:

- a. A debit entry shall be made to the account to record any assessments from the GSA to fund their cost of operations and capital programs.
- b. Interest shall accrue to the account on a monthly basis by applying a rate equal to one-twelfth of the 3-month non-financial Commercial Paper Rate, as reported in the Federal Reserve Statistical Release, to the average of the beginning-of-month and the end-of-month balances.

4. RATEMAKING PROCEDURE:

There is currently no ratemaking component to the memorandum account. Request for recovery of any balances are to be processed according to the General Order 96-B and Standard Practices or otherwise determined in a Commission decision.

SPECIAL CONDITIONS

(N)

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Fire sprinkler rate:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

Schedule No. SBR-6

South Bay Region

RECLAIMED METERED SERVICE

SPECIAL CONDITIONS

(N)

- 1. Dominguez Service Area:
Portions of Carson, Los Angeles, Long Beach, Torrance, and vicinity, Los Angeles County.
Hermosa-Redondo Service Area:
Hermosa Beach, Redondo Beach, Torrance, and vicinity, Los Angeles County.
- 2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
- 3. Recycled water service refers to non-potable water that has been processed and treated by one of the following methods:
 - A. Title 22 Water refers to wastewater that has undergone tertiary treatment that meets recycled water use standards as established in Title 22 of the California Code of Regulations, Division 4 Environmental Health, Chapter 3 Reclamation Criteria, Articles 1 through 10.
 - B. R.O. Water refers to Title 22 Water that has further undergone reverse osmosis treatment to remove salts and dissolved solids.
 - C. Nitrified Water refers to Title 22 Water that has further undergone a biological treatment and processing for removal of ammonia.

* Reclaimed water customers that have signed a contract with the West Basin Municipal Water District (West Basin) for repayment of the conversion costs from potable to reclaimed water service will be charged the potable quantity rates while the contract is in effect. The Company will pay West Basin a percentage of the quantity rate revenues collected from reclaimed water customers billed at potable water rates. The percentage refunded represents the difference between the current West Basin wholesale potable water rate and the wholesale reclaimed water rate.

Bay Area Region
RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS (continued)

4. Fire sprinkler rate: Any service to a residential customer not exceeding two units with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

5. Rates for RDV-Coast Springs: Monthly bills with usage greater than 2 CCF and less than or equal to 6 CCF will include a monthly surcharge of \$8.00 per CCF. Monthly bills with usage at and above 7 CCF will include a monthly capacity surcharge of \$20.00 per CCF. This results in rates for RWV-Coast Springs customers as follows:

		RDV-Coast Springs	
		Rates (with surcharges)	
For	1 – 2 CCF, Per CCF	\$2.8772	
For	3 – 6 CCF, Per CCF	\$10.8772	
For	7 CCF, Per CCF	\$31.4397	
For	8 – 10 CCF, Per CCF	\$34.2938	
For	For Over 10 CCF, Per CCF	\$41.4292	

6. Safe Drinking Water Surcharges: The SDWBA (Safe Drinking Water Bond Act) and SDWSRF (Safe Drinking Water State Revolving Fund) surcharges are in addition to the water bill. This surcharge must be identified on each bill. The surcharge is specifically for the repayment of the loan authorized by the decision indicated below for each area: **RDV-Coast Springs** (D.06-04-031) and **RDV-Lucerne** (D.89-09-002).

RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS (continued)

(L)

8. Bi-monthly Billing: The established billing cycle for the following areas is **bi-monthly** (every other month):
In **RDV-Coast Springs**, in **RDV-Lucerne**, and in the following areas in RWV-Unified: **Armstrong, Noel Heights, and Rancho Del Paradiso**. (All areas except for Bayshore and the Hawkins area of RWV-Unified.)

9. Annual Service Charges in RDV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)

The annual service charge applies to service during the twelve-month period commencing July 1, and is due in advance. If a permanent resident of the area has been a customer of the utility for at least twelve months, he may elect at the beginning of each year to pay prorated service charges in advance at intervals of less than one year in accordance with the utility's established billing cycle.

10. Opening Bill for Metered Service in RDV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)

The opening bill for metered service, except from conversion from flat rate service, shall be the established annual service charge for the service. Where initial service is established after the first day of any year, the portion of such annual charge applicable to the current year shall be determined by multiplying the annual charge by one three-hundred-sixty-fifth (1/365) of the number of days remaining in the year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.

RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS (continued)

(L)

11. New Service in RDV-Coast Springs

Applicants requesting water service that would cause the Coast Springs water system to exceed 250 service connections, or such higher number of connections as DHS may subsequently allow under Coast Springs water system's domestic water supply permit, will be placed on a waiting list. Once additional service connections become available, applicants on the waiting list will be notified in the order they were received. Any previously accepted application for water service in the Coast Springs water system will be revoked if proof of a valid building permit is not provided within 18 months of acceptance of the application for water service or March 17, 2003, whichever is later. Applicants who have had their approval revoked in this manner will be placed at the end of the waiting list.

12. Exemption for Saint Anthony's Monastery in RDV-Coast Springs

Two residential water connections are reserved for the property formerly owned by Cynthia Christopher and Geronima Belen and subsequently sold to the Saint Anthony's Monastery. Those two reserved connections are exempt from the requirement to provide a building permit within 18 months or be dropped from the approved service connections list.

SPECIAL CONDITIONS

1. Bayshore Service Area:
South San Francisco and vicinity, San Mateo, and San Carlos and vicinity, in San Mateo County.
Redwood Valley-Coast Springs Service Area:
Dillon Beach and vicinity, located approximately 4 miles west of Tomales, Marin County.
Redwood Valley-Lucerne Service Area:
The community of Lucerne in Lake County.
Redwood Valley-Unified Service Area:
 - Armstrong Service Area: The unincorporated community of Armstrong, Woods Valley, Lone Mountain Subdivision and vicinity, located approximately 1.5 miles north of the City limits of Guerneville, Sonoma County.
 - Hawkins Service Area: Broadmoor Acres Subdivision and vicinity near the intersection of Stony Point Road Yuba Drive, Santa Rosa, Sonoma County.
 - Noel Heights Service Area: The unincorporated area known as Noel Heights Subdivision, located on the east side of State Highway 116, approximately 2.5 miles southeasterly of the Guerneville City limits, Sonoma County.
 - Rancho Del Paradiso Service Area: The unincorporated area known as Rancho Del Paradiso Subdivision near Duncan Mills, Sonoma County.

2. Qualifying non-profit group living facilities, agricultural employee housing facilities, and migrant farm worker housing centers are eligible for credits as shown on **Schedule CAP**. (T)

3. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits). (T)

4. **Capacity Surcharge for RDV-Coast Springs:** Monthly bills with usage at and above 7 CCF will include a monthly capacity surcharge of \$20.00 per CCF. (C)

SPECIAL CONDITIONS (continued)

- 5. Safe Drinking Water Surcharges:** The SDWBA (Safe Drinking Water Bond Act) and SDWSRF (Safe Drinking Water State Revolving Fund) surcharges are in addition to the water bill. This surcharge must be identified on each bill. The surcharge is specifically for the repayment of the loan authorized by the decision indicated below for each area: **RDV-Coast Springs (D.06-04-031) and RDV-Lucerne (D.89-09-002).**

	RWV-Coast Springs	RWV-Lucerne
	SDWBA	SDWSRF
	Per Meter Per Month	Per Meter Per Month
For 5/8 x 3/4 - inch meter	\$10.48	\$18.01
For 3/4 - inch meter	\$15.73	\$27.02
For 1 - inch meter	\$26.21	\$45.03
For 1-1/2 - inch meter	\$52.42	\$90.06
For 2 - inch meter	\$83.87	\$144.10
For 3 - inch meter	\$157.25	\$270.19
For 4 - inch meter	\$262.09	\$450.31
For 6 - inch meter		\$900.63

- 6. Safe Drinking Water Service Fee for New Service in RDV-Lucerne:** The amount of the SDWSRF (Safe Drinking Water State Revolving Fund) Service Fee for New Service in Lucerne shall be equal to the accumulated total of the monthly surcharge that would have been applicable to such service from the effective date of surcharge implementation, until the date of the new service. The accumulated Service Fee shall not exceed the maximum charges listed in the table below and shall only apply to previously unserved lots. The effective date for the SDWSRF Service Fee for new lots is January 11, 2010.

	<u>Maximum SDWSRF Surcharge</u>	<u>For New Service</u>
For 5/8 x 3/4 - inch meter		\$2,000.00
For 3/4 - inch meter		\$2,000.00
For 1 - inch meter		\$2,000.00
For 1-1/2 - inch meter		\$2,000.00
For 2 - inch meter		\$2,000.00
For 3 - inch meter		\$2,000.00
For 4 - inch meter		\$2,000.00
For 6 - inch meter		\$2,000.00
For mobile home park space		\$2,000.00

Schedule No. BAR-1-NR
Bay Area Region
NONRESIDENTIAL METERED SERVICE

Page 4

SPECIAL CONDITIONS (continued)

7. Bi-monthly Billing: The established billing cycle is bi-monthly (every other month) in **RDV-Coast Springs, RDV-Lucerne,** and the following areas of RDV-Unified: **Armstrong, Noel Heights, and Rancho Del Paradiso.** (All areas except for Bayshore and the Hawkins area of RDV-Unified.)

8. Annual Service Charges in RDV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)

The annual service charge applies to service during the twelve-month period commencing July 1, and is due in advance. If a permanent resident of the area has been a customer of the utility for at least twelve months, he may elect at the beginning of each year to pay prorated service charges in advance at intervals of less than one year in accordance with the utility's established billing cycle.

9. Opening Bill for Metered Service in RDV-Unified: Armstrong, Noel Heights, and Rancho Del Paradiso (not Hawkins)

The opening bill for metered service, except from conversion from flat rate service, shall be the established annual service charge for the service. Where initial service is established after the first day of any year, the portion of such annual charge applicable to the current year shall be determined by multiplying the annual charge by one three-hundred-sixty-fifth ($1/365$) of the number of days remaining in the year. The balance of the payment of the initial annual charge shall be credited against the charges for the succeeding annual period. If service is not continued for at least one year after the period of initial service, no refund of the initial annual charges shall be due the customer.

10. New Service in RDV-Coast Springs

Applicants requesting water service that would cause the Coast Springs water system to exceed 250 service connections, or such higher number of connections as DHS may subsequently allow under Coast Springs water system's domestic water supply permit, will be placed on a waiting list. Once additional service connections become available, applicants on the waiting list will be notified in the order they were received. Any previously accepted application for water service in the Coast Springs water system will be revoked if proof of a valid building permit is not provided within 18 months of acceptance of the application for water service or March 17, 2003, whichever is later. Applicants who have had their approval revoked in this manner will be placed at the end of the waiting list.

GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued)

3. **Fire sprinkler rates:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required or requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service and not a fire service, so the rules and conditions for general metered service shall apply.

4. The established billing cycle for the following areas is **bi-monthly** (every other month).
 Bodfish Water Service Area, Lakeland Water Service Area , South Lake Water Service Area

5. The **SDWBA (Safe Drinking Water Bond Act) surcharge** is in addition to the water bill. This surcharge must be identified on each bill. This surcharge is specifically for the repayment of the California SDWBA loan as authorized by the specified decision for the following areas:
(Kernville Water Service Area - D.85-04-021 - surcharges terminated as of April 15, 2019)
 Lakeland Water Service Area - D.94-09-024

SDWBA Monthly Surcharges		<u>Lakeland</u>	<u>Squirrel Mtn</u>	(C)

Kern River Valley Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS (continued)

6. Bodfish Water Service Area:

In the event that a customer terminates service under this schedule and reinstates service at the same location within 12 months, there will be a reconnection charge equal to the minimum charge which would have been billed had the customer not terminated service.

7. **Safe Drinking Water Service Fee - for New Service in Squirrel Mountain and Lakeland:**

A service fee to provide for the reduction of the SDWBA (Safe Drinking Water Bond Act) loan is chargeable to customers requesting future services to vacant and undeveloped lots in the Squirrel Mountain and Lakeland areas of the Kern River Valley District.

The amount of the New Service Fee will be equal to the accumulated total of the monthly surcharge that would have been applicable to such lot from the effective date of Decision 94-07-023, until the date of the new service, up to a maximum amount of \$1,000. The aggregate of all such fees shall be credited to the balancing account. Thereafter, the SDWBA surcharge authorized by the Commission for current customers in these areas, as contained in the approved tariff schedules, will apply.

Schedule No. LS-1-R
Los Altos Tariff Area
RESIDENTIAL METERED SERVICE

APPLICABILITY

Applicable to all metered water service provided to single-family residential customers.

TERRITORY

Los Altos and vicinity, Santa Clara County.

RATES

1 CCF is 100 cubic feet (748 gallons)

Quantity Rates:

For 1 - 6 CCF, per CCF	\$1.5825	(C) (R)
For 7 to 12 CCF, per CCF	\$6.3131	(C) (I)
For 13 to 23 CCF, per CCF	\$7.8899	(C) (R)
For over 23 CCF, per CCF	\$11.8321	(N)

Service Charge:

Per Meter Per Month

For	5/8 x 3/4 - inch meter	\$34.30	(I)
For	3/4 - inch meter	\$51.45	
For	Fire Sprinkler with 1 - inch meter	\$34.99	
For	1 - inch meter	\$85.75	
For	1-1/2 - inch meter	\$171.50	
For	2 - inch meter	\$274.40	
For	3 - inch meter	\$514.50	
For	4 - inch meter	\$857.50	
For	6 - inch meter	\$1,715.00	
For	8 - inch meter	\$2,744.00	
For	10 - inch meter	\$3,944.50	
For	12 - inch meter	\$5,659.50	
For	14 - inch meter	\$7,717.50	(I)

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

- Customers who receive water deliveries for agricultural purposes under this schedule, and who present evidence to the utility that such deliveries qualify for the lower pump tax rates levied by Santa Clara Valley Water District for agricultural water, shall receive a credit of 50.1 cents per 100 cu. ft. on each water bill for the quantities of water used during the period covered by that bill.

SPECIAL CONDITIONS (continued)

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits). (T)

3. **Fire sprinkler rate:** Any service to a residential customer not exceeding two units with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

For each inch of diameter of service connection

\$3.39

(D)

(C) (I)

SPECIAL CONDITIONS

1. The fire hydrant service will be installed by the utility or by a construction agency acceptable to it at the cost of the applicant. The cost will not be subject to refund.
2. The relocation, replacement, or enlargement of any hydrant shall be at the expense of the party making such request.
3. The cost of maintenance and repair of hydrants will be borne by the utility.
4. The utility or its authorized agents shall have at all reasonable times the right of ingress to and egress from the customer's premises for any purpose connected with private fire hydrants.
5. The customer shall indemnify the utility and save it harmless against any and all claims arising out of service under this schedule and shall further agree to make no claims against the utility for any loss or damage resulting from service hereunder.
6. The fire hydrant shall be used for fire fighting purposes and fire drills only. Any unauthorized use will be charged at the regular established rates for general metered service and may be grounds for the utility to discontinue the fire hydrant service without liability to the utility.
7. The utility will supply to the hydrant only such water at such pressures as may be available from time to time in the operation of Utility's system.
8. Service under this schedule is limited to those services being furnished as of January 1, 1986.

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**. (T)
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits). (T)
3. **Fire sprinkler rate:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply. The new fire sprinkler rate for 1-inch meters is listed above. The fire sprinkler rate for 2-inch meters is also listed above, and continues to be the equivalent of the 5/8 x 3/4-inch meter charge plus a 50% surcharge.

Under the Cooperative Agreement between the City of Selma and the Consolidated Irrigation District, the surcharge identified above will be applied to bills on a monthly basis. Authorized by Decision 15-03-003 and Advice Letter 2392, the collected amounts will be provided to the City of Selma for groundwater replenishment activities. The total annual groundwater fees due under the Cooperative Agreement will be increased over the first 8 years.

Schedule No. SL-2R
Selma Tariff Area
RESIDENTIAL FLAT RATE SERVICE

Page 1

APPLICABILITY

Applicable to all flat rate residential water service.

TERRITORY

Selma and vicinity, Fresno County.

RATES

	<u>Per Service Connection</u> <u>Per Month</u>
For a single-family residential unit, including premises having the following areas:	
6,000 sq. ft., or less	\$68.04
6,001 to 10,000 sq. ft.	\$82.70
10,001 to 16,000 sq. ft.	\$102.28
16,001 to 25,000 sq. ft.	\$129.91
For each additional single-family residential unit on the same premises and served from the same service connection	\$51.00

SPECIAL CONDITIONS

1. The above flat rates apply to service connections not larger than one inch in diameter.
2. All service not covered by the above classifications shall be furnished only on a metered basis.
3. For service covered by the above classifications, if the utility or the customer so elects, a meter shall be installed and service provided under Schedule No. SL-1-R, Residential Metered Service.
4. This Schedule is closed to all new connections as of January 20, 1992, the effective date of Tariff Sheet 4338-W.
5. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits). (T)
6. Qualifying low-income flat rate residential customers are eligible for credits as shown on **Schedule CAP**. (T)

For 3 - inch meter	\$526.50	
For 4 - inch meter	\$877.50	
For 6 - inch meter	\$1,755.00	
For 8 - inch meter	\$2,808.00	
For 10 - inch meter	\$4,036.50	
For 12 - inch meter	\$5,791.50	
For 14 - inch meter	\$7,897.50	(I)

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

- Any designated reclaimed water customer who refuses reclaimed service shall be subject to an additional charge equivalent to 50% of the current Calleguas Municipal Water District (CMWD) potable water rate. This charge was instituted by Ordinance No. 17 of the CMWD on July 15, 1994, which calculates to \$1.5391/CCF.

Schedule No. WK-1-R
Westlake Tariff Area
RESIDENTIAL METERED SERVICE

Page 2

SPECIAL CONDITIONS (continued)

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits). (T)

3. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**. (T)

4. **Fire sprinkler rate:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

Schedule No. WK-1-NR
Westlake Tariff Area
NONRESIDENTIAL METERED SERVICE

APPLICABILITY

Applicable to all metered water service except that provided to single-family residential customers.

TERRITORY
