RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**.

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).

3. **Fire sprinkler rate:** A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

4. **Water Expense Increase**: Beginning on January 1, 2025, rates in this area will reflect a   (C)
    6.0% revenue increase due to higher charges by West Basin Municipal Water District.   (I)
    This caused quantity rates to go up by the following amounts: $0.1515 /CCF for Tier 1   (I)
    usage, $0.6056 /CCF for Tier 2 usage, $0.7570 /CCF for Tier 3 usage, and $1.1355 /CCF   (I)
    for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in
    a balancing account, as required by Section 792.5 of the Public Utilities Code. The
    monthly service charge for a 5/8 x ¾-inch meter changed by $0.00.   (R)
