**Advice Letter No. 2524**

To The Public Utilities Commission of the State of California:

California Water Service Company (“Cal Water”) respectfully submits this Tier 3 advice letter and hereby transmits for filing the following changes in its tariff schedules applicable to its Los Angeles County Region, Palos Verdes district. ***Please note that this advice letter will only be distributed electronically to the Water Division and the attached service lists.***

**Summary**

This advice letter requests approval to update rates in the Palos Verdes service area (in the Los Angeles County Region) so that the additional costs incurred to conclude the Palos Verdes Peninsula Water Reliability Project (“PV Pipeline” or “Pipeline”) can be incorporated into base rates, and a temporary surcharge can be implemented to recover costs tracked in the Palos Verdes Memorandum Account (“PVMA”) largely as a result of the Commission’s late resolution of Cal Water’s 2021 GRC proceeding. This is submitted as a Tier 3 advice letter pursuant to General Order 96-B, Water Industry Rule 7.3.3, with a requested effective date of **January 1, 2025**.

**Background**

Cal Water completed construction of the Palos Verdes Peninsula Water Reliability Project (“PV Pipeline” or “Pipeline”) in its Palos Verdes service area and put the pipeline into use in July 2020. The majority of the known costs for the project at that time were put into base rates in February 2021.<sup>1</sup> Since that time, there have been additional costs related to the PV Pipeline. When Cal

---

<sup>1</sup> See AL 2387 and AL 2396. Revenue increased by approximately \$11 million to recover the \$96.1 million in capital costs known at the time.

Water filed its 2021 GRC Application, Cal Water was aware of other potential costs that the design-builder would likely request but had not yet received a final account of the design-builder's claimed costs. As a result, Cal Water requested creation of the PVMA in order to track the incremental project costs. In D.24-03-042,<sup>2</sup> the Commission authorized creation of the PVMA.<sup>3</sup>

### **Discussion**

Cal Water customers have been receiving the benefits of the project since July 2020. While all work on the project was complete, accepted, and in-service, many additional cost claims remained in dispute and/or were awaiting additional information for final substantiation from the design-builder of the project.

The PVMA was created to track expected, but not yet quantified, costs as Cal Water awaited its design-builder to submit final change orders as one comprehensive and final application from which Cal Water could work toward a final settlement. Cal Water took this position to stop negotiating individual change orders when its design-builder began to include verbiage that additional costs and overall schedule delay claims would be in addition to each individual change order. To support ensuring reasonable and prudent costs, Cal Water used its contract to drive the design-builder to full project completion and requested a single and final claim for added costs. At the time of the 2021 GRC filing, the design-builder could not commit to a specific timeline, causing Cal Water to request creation of the PVMA.

On September 1, 2022, Cal Water received the design-builder's final claim and quantification of costs. Of the 85 remaining potential claims, the design-builder submitted a final claim for 40 of the change orders (waiving the rest) totaling \$13,232,730 in capital costs, plus \$508,037 in previously agreed-upon change orders.<sup>4</sup> With the support of our consultant project manager (Jeff Yarne and Associates), Cal Water closely reviewed each of the 40 final change orders submitted.

Cal Water assessed the validity of the claims under the following criteria: (1) the circumstances were truly uncontrollable, 2) the extent to which the design-builder mitigated such uncontrollable circumstances, and 3) the overall reasonableness and fairness of the costs. From this assessment, Cal Water established a cost per change order that it determined to be reasonable. This initiated a series of negotiations with the design-builder that resulted in a final settlement on November 28, 2022 in which the parties agreed Cal Water would pay \$11,789,490 for the 40 pending change orders. Cal Water also accepted costs for previously negotiated change orders CA 017 and 018 in the amount of \$508,037, for a final total of \$12,297,527 to be paid to the design-builder.

---

<sup>2</sup> D.24-03-042 *Decision Approving a Partial Settlement Agreement and Adopting Rates for California Water Service Company's Test Year 2023 General Rate Case*, Ordering paragraph 17, page 181.

<sup>3</sup> D.24-03-042 also authorized an additional amount of \$6.4 million in capital costs for the project that were included in the new base rates implemented in May 2024.

<sup>4</sup> The design-builder's request also called for the release of the retained payment of \$1,555,487 which was already accounted for in the additional \$6.4 million in capital costs included in proposed 2021 GRC rates, later approved for recovery in D.24-03-042.

Incorporating the final design-builder settlement and other costs (discussed below) that have occurred since the 2021 GRC filing, the additional cost being requested for the PVMA is \$14,775,805. A breakdown of the added costs is as follows:

|                                                                                                                  |              |
|------------------------------------------------------------------------------------------------------------------|--------------|
| Design-Builder fees (Black & Veatch)                                                                             | \$12,297,527 |
| Waterhole (Doty)                                                                                                 | \$17,818     |
| Warranty Support (on-site)                                                                                       | \$37,157     |
| Permitting (Los Angeles County, CA Department of Fish and Wildlife, and Palos Verdes Peninsula Land Conservancy) | \$10,476     |
| SCADA Integration (Communications Enterprises, Inc.)                                                             | \$1,743      |
| Slope Stability Monitoring (Dan Brown & Assoc.)                                                                  | \$16,340     |
| Overhead                                                                                                         | \$2,476,212  |
| Other/Retirements                                                                                                | (\$81,468)   |
| Total                                                                                                            | \$14,775,805 |

The costs other than the design-builder settlement were associated overhead, along with minor costs related to post project completion modifications to address operational needs, monitoring and support of warranty period assessments, corrective actions (note that corrective actions under warranty were at the cost of the design-builder, but Cal Water expended costs to oversee, test, and ensure proper function so that the warranty period was fully leveraged), and meeting the final requirements of easements and permitting.

In this filing, Cal Water is requesting recovery for the following items:

1. An increased revenue requirement for Palos Verdes customers of \$1,769,134. This is from adding \$14,165,909 to ratebase for the additional capital costs of the Pipeline (Total \$14,775,805 above less two years of depreciation). This results in an incremental revenue requirement of \$1,769,134 to be collected from all Palos Verdes customers in the Los Angeles County Region through service charge and commodity rates.
2. Recovering \$3,821,015 of revenue in the PVMA through a temporary surcharge of \$0.2832 per ccf for 24 months. This includes \$3,621,572 of revenue requirement for 2023 and 2024 from the increase in total capital costs above. It also includes \$199,443 of interest. Both of these items are calculated from the effective date of the PVMA (January 1, 2023) through the end of 2024, assuming an effective date for this advice letter of January 1, 2025.<sup>5</sup>

The last adopted revenue Cal Water used for this filing is the requested revenue approved in AL 2515. If this advice letter is approved, a typical monthly bill for a Palos Verdes residential

---

<sup>5</sup> Consistent with Section 3.d of Preliminary Statement BM, interest will continue to accrue on a monthly basis until the costs tracked in the PVMA are recovered.

customer with a 5/8" x 3/4" meter who uses 11 CCF of water per month would increase by \$5.83, or 6.5%<sup>6</sup> (includes the PVMA surcharge).

### **Requested Effective Date**

Cal Water submits this advice letter as a Tier 3 pursuant to General Order 96-B, General Rule 7.3.5, and proposes that the rate changes herein become effective when the Commission adopts a resolution approving the advice letter, preferably by **January 1, 2025**, in order to minimize the number of rate changes customers could experience.

### **Notice:**

**Customer Notice:** Notice of this request will be provided to affected customers consistent with General Order 96-B, General Rule 4.2 and Water Industry Rule 3.1. Notices through bill inserts are anticipated to be delivered to customers through August 2024. ***Cal Water therefore proposes to extend the protest period to September 16, 2024 to give more time to those who receive bills toward the end of this period.***

**Service List:** In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be electronically transmitted on **July 30, 2024**, to competing and adjacent utilities and other utilities or other interested parties having requested such notification. *Please note that this advice letter will only be distributed electronically.*

### **Response or Protest**

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or

---

<sup>6</sup> The Palos Verdes Pipeline is not funded by Antelope Valley customers. Instead, a hypothetical set of tariffed rates (residential and non-residential) is calculated using the revenue requirement for the potable pipeline project. The individual rate components on those hypothetical tariffs are then added to the corresponding ones of the LAR rates to generate tariffed rates for Palos Verdes customers.

**CALIFORNIA WATER SERVICE COMPANY**

Advice Letter 2524, Palos Verdes Memorandum Account Recovery

Page 6

(6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

[water.division@cpuc.ca.gov](mailto:water.division@cpuc.ca.gov), or  
Tariff Unit, Water Division, 3<sup>rd</sup> floor  
California Public Utilities Commission,  
505 Van Ness Avenue, San Francisco, CA 94102

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by mail (or e-mail) to Cal Water at the following address:

[cwsrates@calwater.com](mailto:cwsrates@calwater.com), or  
Natalie Wales  
California Water Service Company  
1720 North First Street,  
San Jose, California 95112

Cities and counties requiring Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the 20-day protest period so a late-filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on. The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period.

**Replies:** The utility shall reply to each protest and may reply to any response. Each reply must be received by the Water Division within 5 business days after the end of the protest period and shall be served on the same day to the person who filed the protest or response. If you have not received a reply to your protest within 10 business days, contact California Water Service Company at (408) 367-8200, and ask for the Rates Department.

Schedule No. PV-LAR-1-R

Palos Verdes Tariff Area (Los Angeles County Region)

RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on **Schedule CAP**.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
3. **Fire sprinkler rate:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
4. **Water Expense Increase:** Beginning on January 1, 2024, rates in this area will reflect a 1.6% revenue increase due to higher charges by West Basin Municipal Water District and the Water Replenishment District of Southern California. This caused quantity rates to go up by the following amounts: \$0.0375/CCF for Tier 1 usage, \$0.1549 /CCF for Tier 2 usage, \$0.1942 /CCF for Tier 3 usage, and \$0.2922 /CCF for Tier 4 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.62.
5. **Temporary Surcharge to Recover Peninsula Water Reliability Project Costs:** Customers will receive a surcharge of \$0.2832 per one CCF (approximately 748 gallons) of water used for a period of 24 months starting January 1, 2025. Water is now distributed in new a pipeline system along a seven-mile stretch.

| For | 4 - inch meter         | \$918.50                   |     |     |
| For | 6 - inch meter         | \$1,837.00                 |     |     |
| For | 8 - inch meter         | \$2,939.20                 |     |     |
| For | 10 - inch meter        | \$4,225.10                 |     |     |
| For | 12 - inch meter        | \$6,062.10                 |     |     |
| For | 14 - inch meter        | \$8,266.50                 |     | (I) |

The service charge is a readiness-to-serve charge that is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

**SPECIAL CONDITIONS**

1. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
  
2. Qualifying non-profit group living facilities, agricultural employee housing facilities, and migrant farm worker housing centers are eligible for credits as shown on **Schedule CAP**.

Schedule No. PV-LAR-1-NR

Palos Verdes Tariff Area (Los Angeles County Region)

NONRESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS (continued)

3. **Water Expense Increase:** Beginning on January 1, 2024, rates in this area will reflect a 1.6% revenue increase due to higher charges by West Basin Municipal Water District and the Water Replenishment District of Southern California. This caused quantity rates to go up by \$0.1858 /CCF. Amounts collected from this quantity rate increase will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.54.

4. **Temporary Surcharge to Recover Peninsula Water Reliability Project Costs:** Customers will receive a surcharge of \$0.2832 per one CCF (approximately 748 gallons) of water used for a period of 24 months starting January 1, 2025. Water is now distributed in new a pipeline system along a seven-mile stretch.

Rates and Regulatory Affairs

Resolution \_\_\_\_\_

**Schedule No. LAR-PV-6**  
**Los Angeles County Region Tariff Area**  
**RECYCLED METERED SERVICE**

**APPLICABILITY**

Applicable to all recycled water customers that have signed a contract with the West Basin Municipal Water District (West Basin) for repayment of the conversion costs from potable to recycled water service will be charged the potable quantity rates while the contract is in effect. The Company will pay West Basin a percentage of the quantity rate revenues collected from recycled water customers billed at potable water rates. The percentage refunded represents the difference between the current West Basin wholesale potable water rate and the wholesale recycled water rate.

**TERRITORY**

Palos Verdes Service Area:

Palos Verdes Estates, Rolling Hills, Rolling Hills Estates, Lomita, Rancho Palos Verdes, San Pedro and vicinity, Los Angeles County.

**RATES**

1 CCF is 100 cubic feet (approximately 748 gallons)

Quantity Rates:

Per CCF \$5.2500 (I)

Service Charge:

|     |                        | <u>Per Meter Per Month</u> |     |
|-----|------------------------|----------------------------|-----|
| For | 5/8 x 3/4 - inch meter | \$48.19                    | (I) |
| For | 3/4 - inch meter       | \$72.29                    |     |
| For | 1 - inch meter         | \$120.48                   |     |
| For | 1-1/2 - inch meter     | \$240.95                   |     |
| For | 2 - inch meter         | \$385.52                   |     |
| For | 3 - inch meter         | \$722.85                   |     |
| For | 4 - inch meter         | \$1,204.75                 |     |
| For | 6 - inch meter         | \$2,409.50                 |     |
| For | 8 - inch meter         | \$3,855.20                 |     |
| For | 10 - inch meter        | \$5,541.85                 |     |
| For | 12 - inch meter        | \$7,951.35                 |     |
| For | 14 - inch meter        | \$10,842.75                |     |

The service charge is a readiness-to-serve charge that is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.
