NOTICE OF INTENT TO ADOPT AN URBAN WATER MANAGEMENT PLAN AND HOLD A PUBLIC MEETING TO RECEIVE COMMENTS ON THE PROPOSED PLAN CALIFORNIA WATER SERVICE COMPANY'S DOMINGUEZ DISTRICT

California Water Code, Part 2.6 Chapters 1 through 4 (Sections 10610 through 10656), are known and may be referred to as the "Urban Water Management Planning Act."

These California Water Code sections require all urban water suppliers that provide water for municipal purposes directly or indirectly to more than 3,000 customers or supply more than 3,000 acre-feet of water annually to adopt an Urban Water Management Plan as outlined and identified in those sections. This requirement applies to privately owned water utilities.

The plan must describe and evaluate sources of supply, reasonable and practical efficient uses, reclamation, and management activities. The components of the plan may vary according to an individual community's characteristics and its capabilities to efficiently use and conserve water. The plan must address measures for commercial, governmental, and industrial water demand management.

The act requires urban water suppliers to update their Urban Water Management Plans at least once every five years and to file updated plans with the Department of Water Resources, the California State Library, and any city or county served by the supplier no later than 30 days after adoption.

California Water Service Company (Cal Water) is an investor-owned public utility providing water service throughout California. In addition, Cal Water is regulated by the California Public Utilities Commission (CPUC).

One of Cal Water's service areas is the Dominguez District, which is located in Los Angeles County. The Dominguez District serves the City of Carson, a large section of the City of Torrance, small sections of the Cities of Compton and Los Angeles and a portion of Los Angeles County.

As a defined urban water supplier, Cal Water is preparing an update to its Urban Water Management Plan for the Dominguez District. It is Cal Water's intent to adopt that plan as required with the Department of Water Resources, the California State Library, and any city or county which Cal Water provides service.

A key focus of this UWMP update is the conservation requirement set forth in Senate Bill 7 (SBx7-7) effective November 2009. SBx7-7 mandates a statewide 20% reduction in per capita urban water use by 2020. To quantify the objectives and identify the means of achieving this mandated demand reduction, Cal Water has adopted a Conservation Master Plan.

Cal Water is in the process of expanding current conservation programs and developing new programs in the Dominguez District. Over the next five years, Cal Water conservation program expenditures are likely to increase, and measure to recently adopted state policies requiring future reductions in per capita urban water use. These measures include SBx7-7, as well as recent decisions by the California Public Utilities Commission (CPUC) directing water utilities to adopt conservation programs and rate structures designed to achieve reductions in water use, as well as the Memorandum of Understanding Regarding Urban Water Conservation in California of which Cal Water has been a signatory since 1991.

The Conservation Master Plan for the Dominguez District will be presented to the Cities, Counties and public agencies served by Cal Water's Dominguez District in conjunction with the UWMP.

Schedule of upcoming actions:

On April 1, 2011, a copy of the Proposed Urban Water Management Plan and the Conservation Master Plan will be available for review during normal business hours at the Rancho Dominguez Customer Service Center, 263 West 237th Street, Torrance CA 90505.

It is preferred that prior arrangements be made with the district's management for viewing the Proposed Urban Water Management Plan and/or the Conservation Master Plan. These arrangements can be made by calling (310) 543-6635.

As an alternative to reviewing the Proposed Urban Water Management Plan in Cal Water's Rancho Dominguez Customer Service Center, Cal Water has placed an electronic copy of the Proposed Urban Water Management Plan available on an FTP site, where the plan may be reviewed and/or downloaded.

The site can be accessed at <http://calwater.ftpsite.com>.

The user name is **cwsftp15** and the password is **caWat3r!**.

The UWMP will be available at this FTP site from April 1, 2011 through June 15, 2011.

If there are issues with accessing the electronic copy, you may contact Michael Bolzowski at the headquarters at 1720 North First Street, San Jose, California 95112-4598, by calling (408) 367-8200, or by email at mbolzowski@calwater.com.

A Public Meeting to receive comments on the Proposed Urban Water Management Plan and the Conservation Master Plan will be held on June 8, 2011, from 3:00 p.m. to 5:00 p.m. in the Rancho Dominguez Customer Service Conference Room located at 2632 West 237th Street, Torrance CA 90505.

If you are unable to attend the scheduled public meeting but want to provide comments regarding the proposed plan, you may send your comments in writing via mail or email to:

Thomas A. Salzano, Water Resource Planning Supervisor
California Water Service Company
1720 North First Street
San Jose, CA 95112-4598
tsalzano@calwater.com

Cal Water will receive comments on the proposed UWMP and the Conservation Master Plan from April 1 through June 15, 2011.

Comments regarding the Conservation Master Plan for Dominguez should be sent to:

Kenneth G. Jenkins, Conservation Manager
California Water Service Company
2632 West 237th Street
